## RI-60 SMD Series Dry Reed Switch

## RI-60 SMD Series

Ultra-miniature dry-reed switch hermetically sealed in a gas-filled glass envelope. Single-pole, single-throw (SPST) type, having normally open contacts, and containing two magnetically actuated reeds.
The switch is of the double-ended type and may be actuated by an electromagnet, a permanent magnet or a combination of both. The device is intended for use in relays, sensors, pulse counters or similar devices.

## RI-60 SMD Series Features

- Ideal for ATE switching
- Contact layers: gold, sputtered ruthenium
- Superior glass-to-metal seal and blade alignment
- Excellent life expectancy and reliability
- RoHS Compliant

## Dimensions for RI-60 SMD Series All Dimension in inches (mm) nominal

## Based on standard RI-60 models

## Coils

All characteristics are measured using the Philips Standard Coil. For definitions of the Philips Standard Coil, refer to "Application Notes" in the Reed Switch Technical \& Application Information Section of this catalog.

## Life expectancy and reliability

The life expectancy data given below are valid for a coil energized at 1.25 times the published maximum operate value for each type in the RI-60 series.

## No load conditions (operating frequency: 100Hz)

Life expectancy: min. $10^{9}$ operations with a failure rate of less than $2 \times 10^{-10}$ with a confidence level of $90 \%$. End of life criteria:
Contact resistance $>1 \Omega$ after 2 ms
Release time > 2 ms (latching or contact sticking).

## Loaded conditions (resistive load: 5 V; 100 mA; operating frequency: 125 Hz )

Life expectancy: min. $2 \times 10^{7}$ operations with a failure rate of less than $10^{-8}$ with a confidence level of $90 \%$.

* For other pad layouts please contact us.

End of life criteria:
Contact resistance $>1 \Omega$ after 2.5 ms
Release time > 1 ms (latching or contact sticking).

## Loaded conditions (resistive load: 20 V; 500 mA; operating frequency: 125 Hz)

Life expectancy: min. $2 \times 10^{7}$ operations with a failure rate of less than $10^{-8}$ with a confidence level of $90 \%$.
End of life criteria:
Contact resistance $>2 \Omega$ after 2.5 ms
Release time $>2.5 \mathrm{~ms}$ (latching or contact sticking). Switching different loads involves different life expectancy and reliability data. Further information is available on request.

## Mechanical Data

Contact arrangement is normally open; lead finish is tinned; net mass is approximately 90 mg ; and can be mounted in any position.

## Shock

The switches are tested in accordance with "IEC 68-2-27", test Ea (peak acceleration 100 G , half sinewave; duration

11 ms ). Such a shock will not cause an open switch (no magnetic field present) to close, nor a switch kept closed by an 80 AT coil to open.

## Vibration

The switches are tested in accordance with "IEC 68-2-26", test Fc (acceleration 10G; below cross-over-frequency 57 to 62 Hz ; amplitude 0.75 mm ; frequency range 10 to 2000 Hz ; duration 90 minutes.) Such a vibration will not cause an open switch ( no magnetic field present) to close, nor a switch kept closed by an 80 AT coil to open.

## Mechanical Strength

The robustness of the terminations is tested in accordance with "IEC 68-2-21", test Ua1 (load 10 N ),

## Operating and Storage Temperature

Operating ambient temperature; min: $-55^{\circ} \mathrm{C}$; max: $+125^{\circ} \mathrm{C}$. Storage temperature; min: $-55^{\circ}$; max: $+125^{\circ} \mathrm{C}$. Note: Temperature excursions up to $150^{\circ} \mathrm{C}$ may be permissible. For more information contact your nearest Comus Group sales office.

## Soldering

The switch can withstand soldering heat in accordance with "IEC 68-2-20", test Tb, method 1B: solder bath at $350 \pm 10^{\circ} \mathrm{C}$ for $3.5 \pm 0.5$ s. Solderability is tested in accordance with "IEC 68-2-20" test Ta, method 3: solder globule temperature $235^{\circ} \mathrm{C}$; ageing 1 b : 4 hours steam.

ORDERING INFORMATION
RI-60SMD - 10-15

AT Ranges**
Series
**Customer specific AT ranges are possible. Please contact your local sales representative.

- As part of the company policy of continued product improvement, specifications may change without notice. Our sales office will be pleased to help you with the latest information on this product range and the details of our full design and manufacturing service. All products are supplied to our standard conditions of sale unless otherwise agreed in writing.
