## Series 206 <br> Through-Hole DIP Switch

- Available with SPST, SPDT, DPST, 3PST circuit choices
- Available with low profile, standard, or extended actuator heights. Consult the ordering information for options.
- Blue housing
- RoHS compliant
- Optional top tape seal for board spray washing
- Gold plated contacts

## Description

The terminals are molded into the thermoset base and provide an electrostatic discharge shield rating to 22 KV when the front row of terminals are connected to ground. The optimized contact design incorporates a dimple-to-flat surface wiping interface for long-term contact corrosion resistance, making the 206 series an ideal choice for many applications.

## Ordering Information

2. Not available in a Double Pole Double Thow (DPDT) construction
