

# LRS180150

## High Bay Lighting Kit/ Heatsink Thermal Solution

### High Thermal Performance

#### Features

- Excellent thermal performance – large heatsink surface and lightweight
- High thermal conductivity aluminum alloy
- Thermal coating Technology – thermal radiation enhancement
- Fully mechanical components
- Optional E39/40 Connector

#### Applications

- LED Bay Lighting 100~150W

#### Description

The LRS series provides excellent thermal performance and design flexibility for LED lighting applications. The LRS series stamped heatsinks provide lower thermal resistance than traditional extruded, cold forged, and die-cast heatsinks. High aspect ratio fin provides excellent heat transfer capability. Various material finishes are available for enhanced thermal performance.
