

# SERIES: CFM-80BG68 | DESCRIPTION: DC AXIAL FAN

#### **FEATURES**

- IP68 rated
- dual ball bearing system
- 80 x 80 mm frame
- multiple speed options
- PWM/tachometer wires available

#

Notoo: 1 At rotod voltage, ofter 3 m	inutoo									

Notes: 1. At rated voltage, after 3 minutes.

.....

2. At rated voltage, room temperature, 65% humidity, 0 inch H<sub>2</sub>O static pressure.

3. At rated voltage, O CFM airflow.

Measured in an anechoic chamber as per ISO3745/GB4214-84 at rated voltage, with background noise 20±2 dBA at 1 m from the fan intake.

5. All specifications are measured at 25°C, 65% relative humidity unless otherwise specified.

# PART NUMBER KEY

"blank" = no signals 20 = tachometer signal 22 = tachometer signal / PWM control signal Reserved for Custom Configurations

 $4-04.5\pm0.3$ 

# **APPLICATION NOTES**

#### Auto Restart Protection

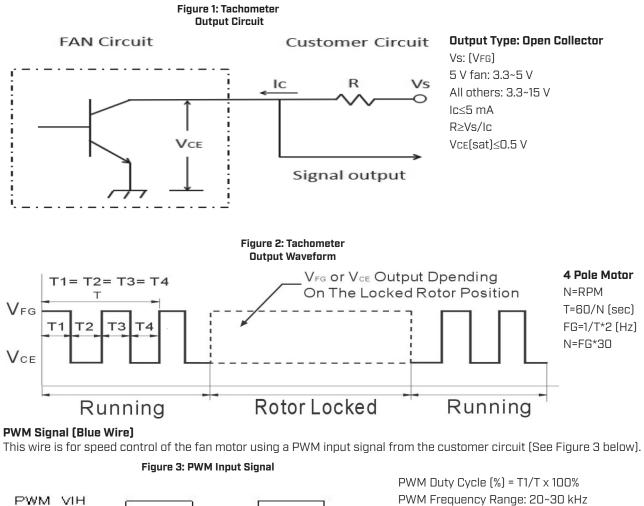

When the fan motor is locked by an external force, the device will temporarily turn off electrical power to the motor and restart automatically when the locked rotor condition is released.

#### **Polarity Protection**

Able to withstand 10 minutes of reverse polarity connection between the positive and negative wires without causing damage.

#### Tachometer Signal (Yellow Wire)

The tachometer signal is for detecting the rotational speed of the fan motor. The output will be a square wave when fan is operating and VFG or VCE depending on the locked rotor position when fan motor is locked (See Figures 1~2 below).

#### PWM Duty Cycle (%) = T1/T x 100% PWM Frequency Range: 20~30 kHz PWM VIH = 2.8~5.5 V PWM VIL = 0~0.6 V

#### Soft Start

When the fan power is on, the current will increase slowly (~15 seconds) until the fan reaches the rated speed.

### **REVISION HISTORY**

rev.	description	date
1.0	initial release	10/26/2023

The revision history provided is for informational purposes only and is believed to be accurate.

CUI Devices offers a one (1) year limited warranty. Complete warranty information is listed on our website.

CUI Devices reserves the right to make changes to the product at any time without notice. Information provided by CUI Devices is believed to be accurate and reliable. However, no responsibility is assumed by CUI Devices for its use, nor for any infringements of patents or other rights of third parties which may result from its use.

CUI Devices products are not authorized or warranted for use as critical components in equipment that requires an extremely high level of reliability. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
