DC COMPONENTS CO., LTD.
RECTIFIER SPECIALISTS

## TECHNICAL SPECIFICATIONS OF GLASS PASSIVATED JUNCTION ZENER DIODES

## VOLTAGE RANGE - 6.2 to 300 Volts

## FEATURES

* Voltage Range: 6.2V to 300 V
* Low leakage
* Low inductance
* High peak reverse power disspation
* Glass passivated junction
* Build-in strain relief

## MECHANICAL DATA

* Case: Molded plastic
* Epoxy: UL 94V-0 rate flame retardant
* Lead: MIL-STD-202E, Method 208 guaranteed
* Polarity: Color band denotes cathode end
* Mounting position: Any
* Weight: 0.33 gram

MAXIMUM RATINGS AND ELECTRICAL CHARACTERISTICS
Ratings at $25^{\circ} \mathrm{C}$ ambient temperature unless otherwise specified Single phase, half wave, 60 Hz , resistive or inductive load. For capacitive load, derate current by $20 \%$.

POWER - 1.0 Watt
(200-41

|  | SYMBOL | VALUE | UNITS |
| :--- | :---: | :---: | :---: |
| Maximum Power Dissipation @TL $=50^{\circ} \mathrm{C}$ (Note 1) | Ptot | 1.0 | W |
| Peak pulse current with a $10 / 1000 \mu$ s waveform | VF | 1.2 |  |
| Maximum Thermal Resistance Junction to Ambient Air (Note 2) | ReJA | 170 | Volts |
| Junction Temperature Range | TJ | -55 to +175 | ${ }^{\circ} \mathrm{C} / \mathrm{W}$ |
| Storage Temperature Range | TsTG | -55 to +175 | ${ }^{\circ} \mathrm{C}$ |
| ${ }^{\circ} \mathrm{C}$ |  |  |  |

NOTES : 1. TL=Lead temperature at $3 / 8^{\prime \prime}(9.5 \mathrm{~mm})$ from body.
2. Valid provided that leads are kept at ambient temperature at a distance of 10 mm form case

## Disclaimer

Any Customer or user of this document or products described herein in such applications shall assume all risks of such use and will agree to hold DC COMPONENTS are harmless against all damages.

DC COMPONENTS disclaims any and all liability arising out of the application or use of any product, including consequential or incidental damages. Statement regarding the suitability of products for certain types of applications are based on DC COMPONENTS 's knowledge of typical requirements that are often placed on DC COMPONENTS products in generic applications. Such statements are not binding statements about the suitability of products for aparticular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application.

DC COMPONENTS reserve the right to make modifications, enhancements, improvements, corrections or other changes without further notice to this document and any product described herein, and disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product. Parameters provided in datasheets and specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify DC COMPONENTS 's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Unless otherwise in writing, DC COMPONENTS products are intended for use as general electronic components in standard applications ( eg: Consumer electronic, Computer equipment, Office equipment, etc.), and not recommended for use in a high specific application where a failure or malfunction of the device could result in human injury or death ( eg: Aerospace equipment, Submarine cables, Combustion equipment, Safety devices, Life support systems, etc.)

Customers using or selling DC COMPONENTS products not expressly indicated for use in such applications do so at their own risk. If customer intended to use DC COMPONENTS standard quality grade devices for applications not envisioned by DC COMPONENTS, please contact our sales representatives in advance.
