Safety-Coated Amber Glass Bottles

Features:

- Glass bottles are safety-coated in plastisol, providing improved handling, filling and transporting of liquids and chemicals
- Safety-coating provides increased resistance to impact/fall damage and provides improved slip-resistant grip (compared with uncoated bottles)
- Coating improves containment of bottle contents and damaged glass if the bottle is dropped and/or damaged - reduces risk of injury and allows time for proper cleaning and disposal
- Translucent amber glass protects light sensitive liquids and allows for easy viewing of contents
- Stores fluids that are not compatible with plastic bottles
- Low charging, meets ANSI/ESD S20.20 and ANSI/ESD S541
- Compatible with any 38-400 threaded neck pump or cap
