

LTE CELLULAR
EXTENDER FOR
BUSINESS CONTINUITY

DIGIEX12

Avoid network outages with primary or backup LTE connectivity; integrate seamlessly with existing infrastructure

The Digi EX12 LTE cellular extender is an affordable, scalable failover solution that enables you to retrofit your infrastructure for cellular network access. With a carrier-certified, embedded LTE Cat 4 cellular modem, equipped with dual SIM slots, Digi EX12 provides uninterrupted primary or backup connectivity. It protects against downtime by automatically switching to a secondary cellular carrier should the primary SIM lose Internet access. This compact, high-performance device is also compatible with any dual-WAN networking appliance and helps you achieve reliable connectivity at any location using your existing equipment.

Couple the Digi EX12 with a dedicated wireline ISP connection to maximize uptime and ensure reliable network availability

for POS systems, ATMs, mobile kiosks, digital signage and more. Deployments are streamlined with installation accessories including an optional Remote Mounting Kit with a disposable battery pack for site survey, mounting bracket and a passive Power-over-Ethernet (PoE) injector for optimizing placement for the best cellular reception.

Digi EX12 can be securely monitored and managed with Digi Remote Manager®, a cloud-based solution that facilitates setup, mass configuration, maintenance and support for hundreds or even thousands of remote Digi® devices. Digi Remote Manager lets you evaluate, update and configure your Digi products — and the health of your network — at scale after deployment.

FEATURES AND BENEFITS

- Redundant cellular connectivity with dual SIMs and Digi SureLink®
- Digi TrustFence® for built-in device security, secure encrypted connections, ongoing monitoring and support
- Optional Remote Mounting Kit with bracket, accessories, passive PoE injector and site survey battery pack to identify the best location for optimum cellular reception
- Automatic cellular carrier detection and switching with Carrier Smart Select™
- Digi Remote Manager software for easy setup, mass configuration and management

DIGI REMOTE MANAGER®

Digi Remote Manager is the technology platform that brings networks to the next level, allowing networks — and the people who manage them — to work smarter. With Digi Remote Manager you can transform a multitude of dispersed IoT devices into a dynamic, intelligent network. Now you can easily deploy, monitor and diagnose thousands of mission-critical devices from a single point of command — on your desktop, tablet or phone. All the while, its software-defined security diligently safeguards your entire Digi ecosystem.

Learn more at www.digi.com/digi-remote-manager

CAPABILITIES

- Activate, monitor and diagnose your mission-critical devices from a single point of command and control — on your desktop or mobile app
- Schedule key operations including firmware updates and file management on a single device or on a group of devices, keeping your network functionality up-to-date and maintaining compliance standards
- Manage edge devices out-of-band via console terminal access
- Keep tabs on device health and connectvity across device deployments of any size
- Create detailed reports and enable real-time alerts for specified conditions
- Integrate device data through open APIs to gain deeper insights and control with third-party applications
- Report and alert on performance statistics, including connection history, signal quality, latency, data usage and packet loss

INFRASTRUCTURE

- Hosted in a commercial-grade cloud server environment that meets SOC 1[®], SOC 2[®] and SOC 3[®] standards
- Superior availability, operating to 99.9% or greater
- Open APIs available to support application development

SECURITY

- More than 175 security controls in place to protect your data
- Member of the Center for Internet Security® (CIS®)
- Enables compliance with security frameworks like ISO27002, HIPAA, NIST and more
- Earned Skyhigh's CloudTrust™ Program highest rating of Enterprise-Ready

PART NUMBERS	DIGI® EX12
EX12-R004-OUS	Digi EX12 with Remote Mounting Kit - 2-port 10/100; RJ-45, RS-232; US and Canada, LTE / HSPA+ Cat 4; Includes antennas, power supply, site survey battery, PoE injector and mounting accessories
EX12-0004-OUS	Digi EX12 without Remote Mounting Kit - 2-port 10/100; RJ-45, RS-232; US and Canada, LTE / HSPA+ Cat 4; Includes antennas and power supply

PART NUMBERS	ACCESSORIES
450069	18 V PSU power supply with barrel jack connector (replacement)
500170	10/100 base-T passive PoE adapter, green (replacement)
440084	4 meter flat Cat 6 Ethernet cable, white (replacement)
440091	0.5 meter flat Cat 6 Ethernet cable, white (replacement)
560083	Temporary site survey battery pack, 9 V with 152.4 mm power lead, 2.1 mm barrel connector (replacement)
