USB Type-C adapter, type A to C M/F, 3A, 5GB, 3.0 Version, bl

The DIGITUS® USB Type A to USB-C™ adapter allows you to use your current USB Type-C™ devices on an older USB A port. The adapter supports the USB 3.0 specification with data transfers of up to 5Gbps and provides a maximum power of 15 W (3 A). By simply flipping the USB-C™ connector, you can switch between USB 3.0 and USB 2.0 speeds if supported by the USB A connector. The integrated 56k pull-up resistor protects your devices from damage due to overload and supplies only as much power as the connected USB-C™ device needs. With this adapter you can use the full range of previous USB versions, backward compatible to the USB 2.0 / 1.1 standards.
