USB-Type-C Gigabit Ethernet Adapter + PD with power delivery function

The USB Type-C™ Gigabit Ethernet adapter allows you to extend your laptop to a network connection and reach speeds of up to 1000 Mbps. No need to install drivers with a CD - thanks to the virtual drive, you can just plug it in and get started. Power is also supplied via a USB-C™ port with Power Delivery (PD) 2.0, which also charges the connected device. The adapter is compatible with Windows, macOS, Google Chrome and all other systems that are compatible with USB-C™. The adapter is an ideal travel companion thanks to its compact dimensions.
