

Push-In Fasteners provide an inexpensive, fast, convenient method to join plastic, circuit boards, or any other thin, light-weight material. They can also be used as push in glides or as bumpers. Special designed legs provide compression and expansion to lock fastener into pre-punched holes. These fasteners are vibration, abrasion and corrosion resistant, and feature large heads for easier assembly, and can be used over and over.

MOUSER STOCK NO.	Description	Dimensions: in.					
		H	A	B	C	D	L
