Bussmann series Surge protection

Eaton's Bussmann™ series one-pole IEC Class II modular surge arresters for TN and TT systems feature local easyID™ visual status indication and optional remote contact signalling. The unique module locking system fixes the protection module to the base.

System volts: 275, 320, 385, 440, 600

The unique nature of Photovoltaic (PV) installations make them vulnerable to damage from lightning strikes and overvoltage events. Bussmann® series DIN-Rail PV Surge Protection Devices (SPDs) combine surge and lightning protection for complete PV protection from overvoltage events.

PV SPD with integrated overcurrent protection ensures complete device isolation for enhanced system safety
