

Hole design

Plated-through hole for press-fit technology

Lower shields

To additionally shield the contact tips of the female connectors on the rear of the cards, it is advisable to fit lower shields. This shielding option is not only available for modules A and B, but also for the 95 pin center connector on 6U cards.

As with the connectors, the shielding is installed using press-fit tools.

Ordering Information

Application	Description	Part number
3U Daughter card	ERmet lower shield module A	044 446
	ERmet lower shield module B (modified)	064 783
6U Daughter card	ERmet lower shield 95 pin center connector	064 782
