

DTD50

50ml Multi-Ratio 2K Dispense Tool

The Fisnar DTD50 is a pneumatically controlled dispense tool for precisely dispensing two component materials packaged into 50ml side-by-side cartridges.

With its simple design and operation; accurate and repeatable fluid deposits are quickly and easily created when connected to a Fisnar dispense controller.

Features:

- Simple and durable design
- Weighing just 280g, it is the industry's lightest dispense tool
- Can be used as a handheld device or mounted onto a stand for hands free dispensing
- Suitable for all ratio sizes including: 1:1, 2:1, 4:1 and 10:1
- Additional storage location at rear to store pistons when not in use

Specifications:

Product Code	DTD50
Maximum Operating Pressure	100psi (6.9 Bar)
Dimensions	141mm x 60mm
Weight	280g
Material	Aluminium and acetal

X-ON Electronics
