

# Ti400, Ti300 and Ti200 Advanced Performance Infrared Cameras

## **Technical Data**

A new generation of tools with next generation performance.

This trio of new Fluke infrared cameras is equipped with LaserSharp™ Auto Focus. Yes, there are other auto focus systems on the market but Fluke took it one step further so you get in-focused images, Every. Single. Time. Every infrared camera user knows that focus is the single most important thing to ensure when conducting an infrared inspection. Without an in-focus image temperature measurements may not be accurate and it's much easier to miss a problem. LaserSharp auto focus tells you exactly where you are focusing. It uses a laser to calculate the distance to your target before it focuses. Place the red laser dot on the object you are inspecting, then pull and release the trigger for a perfect in-focus image.

- Capture up to five additional measurements with CNX™ Wireless System for more complete analysis and reporting\*
- Detect and communicate issues faster with patented Fluke IR-Fusion<sup>®</sup> technology with AutoBlend<sup>™</sup> mode
- Faster communication with wireless image transfer directly to your PC, Apple\* iPhone\* or iPad\*
- · One-handed, easy-to-use user interface
- Ruggedized high resolution 640x480 capacitive touch screen for quick menu navigation
- Capture additional digital images to show location or additional site details with IR-PhotoNotes™ Annotation System
- · Standard and radiometric video recording\*
- Streaming video (USB and HDMI)
- Text\* and voice recording and annotation gets additional details saved with the image file
- Optional interchangeable lenses for greater flexibility in additional applications
- High-temperature measurement (up to 1200 °C on the Ti400)
- Included SmartView\* and SmartView Mobile App Analysis and Reporting Software
- \*Coming soon via firmware update.

  Users notified via SmartView software when available.

HDMI

Announcing the new SmartView<sup>®</sup> Mobile App

Bring your office to your inspection site with the SmartView Mobile App. Create an inspection report on site and communicate directly to your client or manager via your Apple<sup>®</sup> iPhone<sup>®</sup> or iPad<sup>®</sup>.

 $\mbox{\sc Optimize:}$  Adjust the image to present problems in the most effective way.

**Analyze:** Use markers and other tools to quantify the severity of problems.

**Communicate:** Share inspection results by emailing images or reports to:

- Plan next steps or gain approval for work done before you even leave the job site
- If needed, get assistance analyzing the problem

  Fluke SmartView Mobile will increase the return on your infrared camera investment.

## General specifications

Operating temperature	-10 °C to +50 °C (14 °F to 122 °F)	
Storage temperature	-20 °C to +50 °C (-4 °F to 122 °F) without batteries	
Relative humidity	10 % to 95 % non-condensing	
Ruggedized Touchscreen	8.9 cm (3.5 in) diagonal landscape color VGA (640 x 480) LCD with backlight	
Display (Capacitive)		
Controls and adjustments	User selectable temperature scale (°C/°F)	
	Language selection Time/Date set	
	Emissivity selection	
	Reflected background temperature compensation	
	Transmission correction	
	User selectable hot spot and cold spot, and center point on the image	
	Expandable-contractable Measurement Box with MIN-AVG-MAX temp	
	Color alarms	
	User selectable backlight setting Graphical information display preference	
Software	SmartView* and SmartView Mobile App - full analysis and reporting software included	
Batteries	Two lithium ion rechargeable smart battery packs with five-segment LED display to show charge level, all models	
Battery life	Four+ hours continuous use per battery pack (assumes 50 % brightness of LCD and average usage)	
Battery charge time	2.5 hours to full charge	
AC battery charging	Two-bay ac battery charger (110 V ac to 220 V ac, 50/60 Hz) (included), or in-imager charging. AC mains adapters included. Optional 12 V automotive charging adapter. All models	
RC emeration	0 0 1	
AC operation	AC operation with included power supply (110 V ac to 220 V ac, 50/60 Hz). AC mains adapters included.  User selectable sleep and power off modes	
Power saving		
Safety standards	UL 61010-1:2012 CAN/CSA-C22.2 No.61010-1-12 IEC 61010-1 3rd Edition (2010)	
Electromagnetic compatibility	EN 61326-1:2006 IEC 61326-1:2005	
C Tick	IEC/EN 61326-1	
US FCC	CFR 47, Part 15 Subpart B Class B	
Vibration	0.03 g2/Hz (3.8 grms), 2.5g IEC 68-2-6	
Shock	25 g, IEC 68-2-29	
Drop	Engineered to withstand 2 meter (6.5 feet) with standard lens	
Size (H x W x L)	27.7 cm x 12.2 cm x 16.7 cm (10.9 in x 4.8 in x 6.5 in)	
Weight (battery included)	1.04 Kg (2.3 lb)	
Enclosure rating	IP54 (protected against dust, limited ingress; protection against water spray from all directions)	
Warranty	Two-years (standard), extended warranties are available.	
Recommended calibration cycle	3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3	
Supported Languages	Czech, Dutch, English, Finnish, French, German, Hungarian, Italian, Japanese, Korean, Polish, Portuguese, Russian, Simplified Chinese, Spanish, Swedish, Traditional Chinese, and Turkish	

## Ordering information

FLK-Ti400 9 Hz Thermal Imager, 9 Hz FLK-Ti400 60 Hz Thermal Imager, 60 Hz FLK-Ti300 9 Hz Thermal Imager, 9 Hz FLK-Ti300 60 Hz Thermal Imager, 60 Hz FLK-Ti200 9 Hz Thermal Imager, 9 Hz FLK-Ti200 60 Hz Thermal Imager, 60 Hz

Thermal imager with standard infrared lens; ac power supply and battery pack charger (including mains adapters); two, rugged lithium ion smart battery packs; Micro SD memory card with SD adapter; 3m USB cable; 3m HDMI video cable; SmartView\* software with free software upgrades for life; rugged, hard carrying case; soft transport bag; adjustable hand strap; printed users manual (five languages); CD user manual; warranty registration card.

### **Optional accessories**

FLK-LENS/TELE2 Telephoto infrared lens (2X magnification)

FLK-LENS/WIDE2 Wide-angle infrared lens
