Form 3 (Panel Mount with Heatsink)

The Glenair 052-101 unmanaged Ethernet switch is a seven port 10/100/1000Base-layer 2 switch with auto negotiation and auto MDI / MDIX circuitry that enables up to 6x port expansion with IEEE-802.3U 10/100/1000Base-T Ethernet ports. Developed for use in harsh environment applications, the electronics are incorporated into a panel-mountable housing that is sealed against liquid and solid contaminants, and designed for shock and vibration resistance. Connector interface is a high-performance size and weight-saving Glenair Series 805 Mighty Mouse jam nut receptacle connector. This switch is offered in both panel mount and flange mount configurations and also has the option for heatsink fins.
