

Ha-VIS EtherRail® flexible data cable, 8-wire, Cat. 7

Advantages

- Transmission of Gigabit and 10 Gigabit Ethernet acc. to IEEE 802.3
- Suitable for data cabling in rail vehicles and buses
- Fire protection for rolling stock according to EN 45545-2 (HL 1-3), EN 50264-1 EN 50306-1 and NFPA 130
- Technical prescriptions concerning the burning behavior acc. to UN/ECE-R 118
- Temperature range: -40 °C ... +80 °C
- RoHS conform, halogen free LSZH

Application

This data cable was especially designed for fixed and protected installation inside and outside of rail vehicles and buses. The cable fulfils the fire protection standard for railway vehicles EN 45545-2 (HL1 - HL3).

The cable sheath complies with the EM 104 requirements of EN 50264-1, EN 50306-1 and class M according to EN 50306-4. In the harsh train environment it performs with excellent resistance to oils and fuels.

The robust PIMF cable construction guaranties a reliable data transmission for all applications of classes D to F multimedia up to 10 Gbit/s according to IEEE 802.3.

Current supply (up to 350/600 mA) and voltage (up to 48 V) can be provided via PoE/PoE+ (according to IEEE 802.3af/at).
