

General

HARTING Ha-VIS RFID System components

Real-time information and the close synchronization of computer data and real processes play a critical role in process management and process optimization. Ensuring that information precisely maps and concurs with reality is the only way to control processes optimally and reap savings potentials accordingly.

One important prerequisite for guaranteeing that data and processes are synchronized is an intelligent infrastructure that makes data transparent and available throughout a company in order to achieve the maximum savings potentials.

RFID offers you the full potential to create intelligent infrastructures: benefit from the simultaneous identification of up to several hundred objects - without the need for the direct line of sight as required by barcode solutions. The collected data are immediately ready for further processing throughout the company.

Moreover, a transponder can be used to store information directly on the product at the same time it is identified. This means that these data are also always available wherever the product may happen to be located.

HARTING offers smart infrastructure solutions based on optimally coordinated components from a single source. These solutions enable the reliable control and steering of production and business processes, thereby resulting in lower costs.

The HARTING RFID Reader and components have been designed for harsh industrial applications. Deployed in the transportation, machinery and energy markets, HARTING RFID components guarantee secure and reliable information processing - also under the most challenging environmental conditions

Passive UHF Transponder
Ha-VIS RFID LT 89 (NT)-G2AH3

Technical characteristics

Frequency range	860 MHz ... 960 MHz
Protocol	EPC C1Gen2
Chip	Alien Higgs 3
Memory	512 bit
Lesereichweite (Freiraum, 2 W ERP)	≥ 2.5 m
Abmessungen (B x H x T)	123 x 30 x 8 mm
Degrees of protection	IP 64 / IP 67 / IP 69K
Temperature range	
Operational range (read)	-40 °C ... +85 °C
Operational range (write)	-40 °C ... +85 °C
Storage	-50 °C ... +85 °C
Mounting	M4 screws or rivets with washers
Colour	Black
Merkmale	<ul style="list-style-type: none"> • On any objects including metallic surfaces like skeleton boxes or over fluids (e.g. container) • Robust housing • EPC C1 Gen2 compatible • Extended memory

RFID Reader Ha-VIS RFID RF-R500

General description

The Ha-VIS® RFID RF-R500 is a high performance UHF RFID long range reader. It supports up to 4 antennas simultaneously reducing costs and easing integration of RFID technology. Due to its robust aluminium housing and up to IP 64, it is ideally suited for industrial applications.

The reader was designed for very high reading sensitivity combined with impressive reading and data processing speed. The reader brings wireless RFID communication into industrial environments.

The reader can directly control lamps, sirens or gates via the integrated GPIOs.

Features

- Up to 4 antenna
- Up to 4 W transmitting power
- Impressive bulk reading
- Power over Ethernet (PoE)
- Up to IP 64 with an optional protection cap (otherwise IP 53)
- 5 hardware interfaces: Ethernet, RS 232, RS 485, USB, and a USB port for external memory

Advantages

- High receiver sensitivity for enlarged and homogeneous tag detection range
- Metal housing
- Integrated antenna multiplexer
- Simple installation
- Versatile hardware and software configuration

Application fields

- Smart infrastructure
- Logistics
- Asset management
- Machinery

Technical characteristics

Transponder protocol	EPC Gen2 (ISO 18000-6-c)
UHF RFID antenna interface	
Antenna connection	4x SMA connector (50 Ohm); Reader internally multiplexed
Frequency area	860 MHz ... 960 MHz (depending on specific reader)
Radio license	Europe EN 302 208
Supply voltage on antenna outputs	24 V DC / 200 mA (Ha-VIS RFID RF-R500-p only)
Interfaces	<ul style="list-style-type: none"> • Ethernet (TCP/IP) 10/100 Mbit/s; Full Spec. 802.3 • RS 232 / RS 485 • USB / USB-Port for WLAN dongle or external memory
Inputs	5 Optocoupler (max. 24 V DC / 20 mA)
Outputs	<ul style="list-style-type: none"> • 2 Optocoupler (24 V DC / 30 mA) • 3 Relays (24 V DC / 1 A)
LED Diagnosis	
8 LEDs (from left to right)	<ul style="list-style-type: none"> • Run • Host communication • Warning • Input / output • Antenna 1 • Antenna 2 • Antenna 3 • Antenna 4
Performance	
Max. Operating Distance	Up to 16 m, depending on kind of transponder & environmental conditions
Protocol Modi	
	<ul style="list-style-type: none"> • HARTING Host Mode • Scan Mode • Notification Mode • Buffered Read Mode
Power Supply	
Current consumption	max. 2 A
Design features	
Material of housing	Aluminium, powder coated
Dimensions (W x H x D)	260 x 157 x 68 mm
Weight	2000 g
Degree of protection acc. to DIN 60 529	IP 64 (with protection cap) / IP 53 (without protection cap)
Installation on DIN rail	DIN rail mounting kit (optional accessories)

Technical characteristics

Environmental conditions

Operating temperature	-25 °C ... +50 °C
Storage temperature	-25 °C ... +85 °C
Relative humidity	5 % ... 95 % (non-condensing)
Vibration	EN 60 068-2-6 10 Hz ... 150 Hz: 0.075 mm / 1 g
Shock	EN 60 068-2-27 Acceleration: 30 g

Norms & Safety

Radio license	<ul style="list-style-type: none"> • EN 302 208 • FCC 47 FCR Part 15 • IC RSS-GEN, RSS-210
EMC	EN 301 489
Low voltage	EN 60 950
Human Exposure	EN 50 364
RoHS compliant	

RF diagnosis

- RF Channel monitoring
- Antenna SWR control
- Internal overheating control

Operating system

Linux (Kernel 3.x.x)
64 MB RAM, 256 MB Flash

Others

- Anticollision function
- Real time clock
- RSSI

Software

Demo- and configuration software	Ha-VIS RFID config
Minimal hardware requirements	<ul style="list-style-type: none"> • Personal computer IBM PC Pentium III 1000 MHz or faster recommended • Windows XP® (32 Bit) with 256 MB RAM or Windows® 7 (32 / 64 Bit) • Hard disk with minimum free 30 MB memory space • Windows® compatible mouse • Windows® compatible super VGA graphic card (800 x 600) (1024x768 recommended)

General description

Features

- UHF RFID wide range antenna
- Reading range up to 16 m (depending upon tag properties, environment and requirements)
- Compact construction
- Optimized for portal applications
- Suitable for industrial environments
- High IP 65 protection class
- Suitable for outdoor usage

Advantages

Application fields

- Smart infrastructure
- Gate applications
- Asset management
- Machinery

Technical characteristics

Polarization	circular
Axial ratio	typ. 1 dB
VSWR	< 1.2:1
Impedance	50 Ohm
Front-to-back ratio	>18 dB
Far field half-power beam width	69°
Connection	TNC socket
Protection class	IP 65
Weight	approx. 1.7 kg
Dimensions (WxDxH)	270 x 270 x 45 mm
Material	
Antenna cover	tough, weather-resistant polymer blend colour RAL 7045
Chassis	Aluminium
Seals	thermoplastic elastomer
Installation	four M5 drill holes 100 x 100 mm
Temperature range	
storage	-40 °C ... +85 °C
ambient	-20 °C ... +55 °C

General description

Features

- UHD RFID wide range antenna
- Reading range up to 16 m (depending upon tag properties, environment and requirements)
- Compact design for ruggedized environmental applications
- Optimized for portal applications
- Different half power beam widths in azimuth and elevation plane
- Suitable for industrial environments
- High IP 65 protection class
- Suitable for outdoor usage

Advantages

Application fields

- Smart infrastructure
- Gate applications
- Asset management

Technical characteristics

Polarization	circular
Axial ratio	< 2 dB
VSWR	< 1.2:1
Impedance	50 Ohm
Front-to-back ratio	>20 dB
Half-power beam width	30° vertical 70° horizontal
Connection	N (female)
Protection class	IP 65
Weight	approx. 3.7 kg
Dimensions (WxDxH)	557 x 262 x 59 mm
Material	
Antenna cover	fiberglass radome (UV resistance), gray
Chassis	stainless steel
Plate patch	brass tin-plated
Gasket	thermoplastic elastomer
Installation	four M5 drill holes 100 x 100 mm
Temperature range	
storage	-40 °C ... +85 °C

Operating temperature range	-55 °C ... +85 °C
Impedance	50 Ohm
Screening effectiveness	> 55 dB (100 ... 900 MHz)
Attenuation	22 dB/100 m @ 800MHz (depending on application and environmental conditions)
Standard lengths	3 m / 10 m
Colour	Black
Optional accessory	SMA-TNC adapter, necessary to connect to Ha-VIS RF-R500

Cables + Accessories
