1. DESCRIPTION OF CONNECTOR AND INTENDED APPLICATION

A range of 2.54mm (0.1") pitch connectors, having 0.64mm (0.025") square pins and sockets suitable for interconnecting board to board and board to wire.

The socket is a box section design with a latch to locate and hold in an insulated housing. Terminations are available for wire crimp, through board solder or surface mount in either horizontal or vertical mounting.

The plug pin is held in a moulding, and is available for either horizontal or vertical, surface mount or through board solder mounting. Plug mouldings are available in unlatched or latched versions. Contacts may be gold. Surface mountable pin headers are available in single and double row, vertical and horizontal variations.

2. RATINGS

For all M20 Pin Headers, including Pin header variants (detailed below as "M20-PH").

Note: individual components may exceed these ratings – check individual customer information sheets.
