

GT50 Series

1mm Pitch, Single Row, Small Size, Heat/Vibration Resistant Wire-to-Board Connector for Automotive Internal Connection

Features

Compact and Low Profile (1mm Pitch)

Space-saving design that contributes to size reduction of end product.

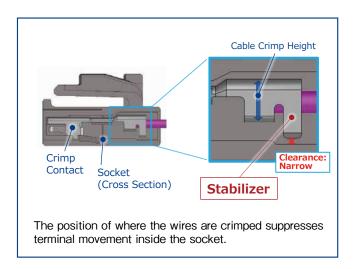

2. High Heat Resistance up to 125°C

125°C heat resistance (Note) makes GT50 ideal for applications requiring high heat resistance such as automotive.

Note: Includes temperature rise due to current flow

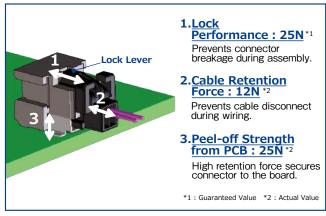

3. High Vibration Resistance

The stabilizer which suppresses vibration from the outside, reduces contact wear between the header terminal and crimp terminal and achieves stable contact even under intense vibration.

4. Robust design for cable routing that resists disconnecting.

GT50 has high strength in a compact size.

Robust Design

5. User-Friendly Lock Design

Incomplete mating prevention for enhanced contact reliability.
