

PRODUCT INFORMATION SHEET

PZ impact screwdriver bit

Product description

Pozidrive PZ cross impact screwdriver bits with increased strength compared to standard screwdriver bits. Specially designed geometry with tapered profile, twists when used, in order to absorb maximum torque. This protects both the screwdriver bit and the screw itself from damage. For use in screwdrivers or impact drills which significantly speed up the work. Particularly suitable for frequent and heavy duty work. A must-have for any demanding and lengthy workshop work as well as for renovation and construction or carpentry work.

Characteristics

- 1/4" hexagonal profile;
- made of the highest quality S2 alloy steel, which in combination with a hardening process guarantees maximum strength and at the same time great flexibility;
- cold hardened to a hardness of 58-61 HRC;
- resistant to deformation and cracking;
- the colour code facilitates quick identification of the screwdriver bit type;
- DIN 3126 compliant;
- packed in in a 5-piece practical reusable container for convenient storage, reducing the risk of loss.
