Terminal Blocks

BN-W
BNH-W Series

UL recognized, CSA certified, and TÜV compliant.
Self-lifting and touch-down terminals available.

• See website for details on approvals and standards.

Touch-down terminal blocks reduce wiring time. (BNH-W/BNDH-W Series)

1. Insert the Crimping Terminal

Terminal screw is always in the open position. No need to loosen the screw.
2. Push the Screw Down

Push the screw down to temporarily hold the wire in place.

3. Tighten the Screw

The screws can be tightened easily with a pneumatic screwdriver.

• Molded from UL94V-0 material with excellent flame and shock resistance.
• Terminal blocks can be mounted on a 35-mm-wide DIN rail and 30-mm-wide IEC type C rail.

DIN Rail   IEC Type C Rail

• 9.5-mm-wide marking strips can be used on all models. 17-mm-wide sliding type marking strips also available. (BN10W to BN30W)
• Terminal blocks of different shapes and capacities can be installed without using an end plate. (BN/BNH10W to BN/BNH30W)
• Screw and stud terminals available for large capacity terminal blocks.
• Additional mounting and removal of terminals is easy. (BN☐10W to BN☐150W)
• Complies with JIS C 8201-7-1 and NECA C 2811.
• UL recognized, CSA certified, and EN compliant (TÜV approved). (Except common terminal)
• UL recognized for field wiring (FW2).

IDEC

BN-W / BNH-W Series Terminal Blocks

UL recognized, CSA certified, and TÜV compliant.
Touch-down terminals reduce wiring time.

• Complies with JIS C 8201-7-1 and NECA C 2811.

General Ratings

Dielectric Strength	2500V AC, 1 minute
Insulation Resistance	100 MΩ minimum
Operating Temperature	−25 to +55°C (no freezing)
Storage Temperature	−25 to +70°C (no freezing)
Operating Humidity	45 to 85% RH (no condensation)

Material

Parts Name	Material
Housing	Modified PPE
Bus Bars	Brass (Nickel-plated)
Terminal Screw	Steel (Zinc chrome-plated)
Spring	Stainless steel (touch-down type only)

BN-W / BNH-W Series Terminal Blocks

Self-Lifting Terminal with Fuse

BNF10S-□A | 10A | M4

Fuse Ratings
- Rated Voltage: 250V
- Rated Current: 1, 3, 5A
- Cartridge Fuse: JIS C 6575-2
  6.35×31.8 mm or 6.40×30.0 mm
- Part No.: BNF10S-1A, BNF10S-3A, BNF10S-5A
- Cartridge used: FGB1 by FUJI Terminal Industry Co., Ltd.

Notes: UL/CSA approved products shown below are not supplied with fuses. When UL/CSA approval is required for fuse terminal blocks, use UL/CSA-rated fuses.
- Part No.: BNF10SW
- Rated Insulation Voltage: 600V
- Rated Current: 10A
- Applicable Wire: 18-10 AWG
- UL File No.: E78117
- CSA File No.: LR64803

BNF10N-□A (With Lamp) | 10A | M4
- **Internal Connection**

Notes: Neon lamp turns on when the fuse blows. For the neon lamp to turn on, the voltages must be from 100 to 250V AC.

Fuse Ratings
- Rated Voltage: 250V
- Rated Current: 1, 3, 5A
- Cartridge Fuse: JIS C 6575-2
  6.35×31.8mm or 6.40×30.0mm
- Part No.: BNF10N-1A, BNF10N-3A, BNF10N-5A
Note: 6.4×30.0mm fuse can also be used.
Notes: UL/CSA approved products shown below are not supplied with fuses. When UL/CSA approval is required for fuse terminal blocks, use UL/CSA-rated fuses.
- Part No.: BNF10NW
- Rated Insulation Voltage: 300V
- Rated Current: 10A
- Applicable Wire: 18-10 AWG
- UL File No.: E78117
- CSA File No.: LR64803

Self-Lifting Terminal with Disconnecting Switch

BNT20 | 20A | M4
Notes:
- Rated Current: 20A
- This terminal block cannot be used as a disconnect switch.
- When switching on/off, make sure that voltage is not applied.

DIN Rail/End Clip	Aluminum: BAA1000, Steel: BNL6
C Rail/End Clip	Aluminum: BNCA1000, Steel: BNL7
DIN+C Rail/End Clip	Aluminum: BNJA1000, Steel: BNL6/BNL7

∗1: The rated applicable wire size is 1.25 mm², but 2 mm² wires can also be connected.

∗2: The rated current differs according to operating conditions. See "Selecting Terminal Blocks by Current According to JIS Standards" on G-006.

∗3: Use a CSA certified crimping terminal when using the terminal block as a CSA certified product.

∗4: See G-025 for details on accessories.

*1: The rated applicable wire size is 1.25 mm², but 2 mm² wires can also be connected.
*2: Do not remove the built-in common jumper. Common terminal type terminal blocks cannot be disassembled.
*3: Make sure that all terminal screws are tightened to an appropriate tightening torque before power is applied.
*4: Specifications are in compliance with JIS C 8201-7-1.
*5: See G-025 for details on accessories.

Application Example

BN15MC4

PLC

L0 to L7: Load

(+)
(−)
Features

- All terminals are short-circuted by a built-in common jumper. External jumpers are not required.
- Accessories (marking strip, cover, and rails) are compatible with standard types.
- Common terminal type terminal blocks can be combined with other standard types as they are identical in shape and in size as BN15MW.
- Color: Light Gray

Calculating Rail Lengths and Mounting Centers

- BNCA, BAA, and BNJA Rails

$L_1 = 12.5 \times N$

$L_2 = L_1 - 25$

Note: This formula is for calculating the maximum rail length including tolerance. Depending on the combination of terminal blocks, the required rail length may be shorter than the calculated value, particularly when many terminal blocks are combined.

N: Rounded up numerical number from the calculated value of M. (Example: N for 19.1 is 20)

$$M = \frac{(A + 0.1)\, n + B + C}{12.5}$$

A: Thickness of each terminal block
B: Thickness of end plate
C: Thickness of end clip when using 2 pieces of:
　　　BNL6 = 56.0 mm
　　　BNL7 = 62.5 mm
　　　BNL8 = 67.0 mm
n: The number of terminal blocks

Rail Length (Double-Deck)

Calculating the length (mm)

Part No.	BND15W BNDH15W BND15WT	BND15LW BNDH15LW
L1 (∗1)	12.5 × N	
L2 (∗1)	L₁ – 25	
L3 (∗1, ∗2)	8 × n + 9	10.5 × n + 10.3
Connecting Rod Length (∗1, ∗2)	8 × n + 8.7	10.5 × n + 10

N: Rounded up numerical number from the calculated value of M.
　　(Example: N for 19.1 is 20)

For BND15W, BNDH15W, BND15WT

$$M = \frac{(8 \times n + 9 + 62.5)}{12.5}$$

For BND15LW, BNDH15LW

$$M = \frac{10.5 \times n + 10.3 + 62.5}{12.5}$$
Mounting Centers (Double-Deck)

Calculating the length (mm)

Part No.	BND15W BNDH15W BND15WT	BND15LW BND15HLW
Mounting Centers (∗1, ∗2)	8 × n + 24.2	10.5 × n + 25.5
Connecting Rod Length (∗1, ∗2)	8 × n + 20.2	10.5 × n + 21.5

n: The number of terminal blocks

∗1: This formula is for calculating the maximum rail length including tolerance. Depending on the combination of terminal blocks, the required rail length may be shorter than the calculated value, particularly when many terminal blocks are combined.
∗2: The length will be 1.5 mm longer when end plates BNDE15W2 and BNDE15LW2 are used.

# BN-W / BNH-W Series Terminal Blocks Series

Instructions

How to Use Touch-Down Terminals

1. With the terminal screws in the up position, insert a ring crimping terminal.

2. Push down the head of the screw lightly to hold the crimping terminal.

3. When the wiring is in position, tighten all the screws simultaneously.

4. To remove the wiring, loosen the screw and lightly push up.

Installation and Removal on Rails
Additional Installation and Removal (on DIN Rail)

Installation   Push   Removal   Pull Out
Notes: The following terminal blocks can be added or removed:
BN10W, BNH10W, BN15MW, BNH15MW, BN15LW, BNH15LW, BN30W, BNH30W, BN15MWT, BNH15MWT, BN15LWT, BNH15LWT

Securing the Ends of the Marking Strip

The ends of the marking strip can be secured with a marking strip fastener (or end plate).
To Secure the Marking Strip   Installing End Plate

For double-deck, use an end plate to secure marking strips (BNDE15W2, BNDE15LW2).

Installation of Double-Deck Terminal Blocks (BND)

Rail Mount (photo: when using BND15W, BNDH15W, BNDE15W2)
BND15W/BNDH15W

1. Install end plate. Then mount the terminal blocks onto the DIN rail.
2. Insert connecting rod (BNR) through each hole of the terminal blocks.
3. Secure the ends of the connecting rods with connecting nuts (BNN1).
4. To prevent side-to-side movement on the DIN rail, use the BNL6 end clips at both ends of the rail.

Surface Mount
BND15W/BNDH15W

1. Assemble a row of terminal blocks with end plates on exposed ends.
2. Use BNDL2 mounting clips at both ends of a row.
3. With the two holes of the mounting clip (BNDL2) aligned with the terminal block holes, insert a connecting rod (BNR) through each hole.
4. Secure the ends of the connecting rods with the connecting nuts (BNN1).

IDEC

Instructions

Dust Covers on the Lower Deck Terminal of Double-Deck Terminal Blocks

Installing Dust Covers on Lower Deck Terminals

Lower Deck
Dust Cover

Push in
Groove

Groove

1. Press the lower end of the dust cover into the groove.
2. With the lower end of the dust cover pressed into the groove, push in the top end in the direction of the arrow.
Removing Dust Covers from Lower Deck Terminals

Turn the power off before removing the dust cover.

1. Hold the end of the dust cover which is extruding from the end plate.

2. Lift up in the direction of the arrow.

3. If the dust cover cannot be removed all at once, place fingers between the terminal block and dust cover, and slowly remove the dust cover.

Length of Double-Deck Dust Covers

Upper-Deck Dust Cover
BNC230

Lower-Deck Dust Cover
BNC240

Cut required length depending on the number of terminal blocks used. (Length in mm)
Terminal Block	Dust Cover	1-pole	2-pole	3-pole	4-pole	5-pole	6-pole	7-pole	8-pole	n-pole

Securing Marking Strip with Marking Strip Fasteners for Double-Deck Terminal Blocks

Because marking strips can be secured without using marking strip fasteners, installation time can be shortened.
Also, marking strips can be inserted and removed after installation.

Notes on Wiring

Crimping Terminals

• When using crimping terminals, be sure to use insulated terminals to prevent electric shocks.

Without Crimping Terminals

• Insert the wire until the insulation comes into contact with the terminal metal part.
• Strip the insulation so that the wire is longer than the width of the wire clamp.
• When connecting two wires, use wires of the same size.

Ordering Terms and Conditions

Thank you for using IDEC Products.

By purchasing products listed in our catalogs, datasheets, and the like (hereinafter referred to as "Catalogs") you agree to be bound by these terms and conditions. Please read and agree to the terms and conditions before placing your order.

1. Notes on contents of Catalogs

(1) Rated values, performance values, and specification values of IDEC products listed in this Catalog are values acquired under respective conditions in independent testing, and do not guarantee values gained in combined conditions.
Also, durability varies depending on the usage environment and usage conditions.

(2) Reference data and reference values listed in Catalogs are for reference purposes only, and do not guarantee that the product will always operate appropriately in that range.

(3) The specifications / appearance and accessories of IDEC products listed in Catalogs are subject to change or termination of sales without notice, for improvement or other reasons.

(4) The content of Catalogs is subject to change without notice.

2. Note on applications

(1) If using IDEC products in combination with other products, confirm the applicable laws / regulations and standards.
Also, confirm that IDEC products are compatible with your systems, machines, devices, and the like by using under the actual conditions. IDEC shall bear no liability whatsoever regarding the compatibility with IDEC products.

(2) The usage examples and application examples listed in Catalogs are for reference purposes only. Therefore, when introducing a product, confirm the performance and safety of the instruments, devices, and the like before use. Furthermore, regarding these examples, IDEC does not grant license to use IDEC products to you, and IDEC offers no warranties regarding the ownership of intellectual property rights or non-infringement upon the intellectual property rights of third parties.

(3) When using IDEC products, be cautious when implementing the following.
   i. Use of IDEC products with sufficient allowance for rating and performance
   ii. Safety design, including redundant design and malfunction prevention design that prevents other danger and damage even in the event that an IDEC product fails
   iii. Wiring and installation that ensures the IDEC product used in your system, machine, device, or the like can perform and function according to its specifications

(4) Continuing to use an IDEC product even after the performance has deteriorated can result in abnormal heat, smoke, fires, and the like due to insulation deterioration or the like. Perform periodic maintenance for IDEC products and the systems, machines, devices, and the like in which they are used.

(5) IDEC products are developed and manufactured as general-purpose products for general industrial products. They are not intended for use in the following applications, and in the event that you use an IDEC product for these applications, unless otherwise agreed upon between you and IDEC, IDEC shall provide no guarantees whatsoever regarding IDEC products.
   i. Use in applications that require a high degree of safety, including nuclear power control equipment, transportation equipment (railroads / airplanes / ships / vehicles / vehicle instruments, etc.), equipment for use in outer space, elevating equipment, medical instruments, safety devices, or any other equipment, instruments, or the like that could endanger life or human health
   ii. Use in applications that require a high degree of reliability, such as provision systems for gas / waterworks / electricity, etc., systems that operate continuously for 24 hours, and settlement systems
   iii. Use in applications where the product may be handled or used deviating from the specifications or conditions / environment listed in the Catalogs, such as equipment used outdoors or applications in environments subject to chemical pollution or electromagnetic interference
   If you would like to use IDEC products in the above applications, be sure to consult with an IDEC sales representative.

3. Inspections

We ask that you implement inspections for IDEC products you purchase without delay, as well as thoroughly keep in mind management/maintenance regarding handling of the product before and during the inspection.

4. Warranty

(1) Warranty period
The warranty period for IDEC products shall be one (1) year after purchase or delivery to the specified location. However, this shall not apply in cases where there is a different specification in the Catalogs or there is another agreement in place between you and IDEC.

(2) Warranty scope
Should a failure occur in an IDEC product during the above warranty period for reasons attributable to IDEC, then IDEC shall replace or repair that product, free of charge, at the purchase location / delivery location of the product, or an IDEC service base. However, failures caused by the following reasons shall be deemed outside the scope of this warranty.
   i. The product was handled or used deviating from the conditions / environment listed in the Catalogs
   ii. The failure was caused by reasons other than an IDEC product
   iii. Modification or repair was performed by a party other than IDEC
   iv. The failure was caused by a software program of a party other than IDEC
   v. The product was used outside of its original purpose
   vi. Replacement of maintenance parts, installation of accessories, or the like was not performed properly in accordance with the user's manual and Catalogs
   vii. The failure could not have been predicted with the scientific and technical standards at the time when the product was shipped from IDEC
   viii. The failure was due to other causes not attributable to IDEC (including cases of force majeure such as natural disasters and other disasters)
Furthermore, the warranty described here refers to a warranty on the IDEC product as a unit, and damages induced by the failure of an IDEC product are excluded from this warranty.

5. Limitation of liability

The warranty listed in this Agreement is the full and complete warranty for IDEC products, and IDEC shall bear no liability whatsoever regarding special damages, indirect damages, incidental damages, or passive damages that occurred due to an IDEC product.

6. Service scope

The prices of IDEC products do not include the cost of services, such as dispatching technicians. Therefore, separate fees are required in the following cases.
   (1) Instructions for installation / adjustment and accompaniment at test operation (including creating application software and testing operation, etc.)
   (2) Maintenance inspections, adjustments, and repairs
   (3) Technical instructions and technical training
   (4) Product tests or inspections specified by you

   The above content assumes transactions and usage within your region. Please consult with an IDEC sales representative regarding transactions and usage outside of your region. Also, IDEC provides no guarantees whatsoever regarding IDEC products sold outside your region.
