**With Latching or Momentary Lever**

**Mechanical Indicator\***

The contact position can be confirmed through the five small windows.

**Marking Plate**

Standard yellow marking plate is easily replaced with optional marking plates in four colors for easy identification of relays.

**LED Indicator\***

Non-polarized green LED indicator is standard provision for plug-in terminal, latching lever types

**Latching and Momentary Lever**

Using the lever, operation can be checked without energizing the coil. The lever is color coded for AC and DC coils.

	Latching	Momentary
AC coil:	Orange	Red
DC coil:	Green	Blue

**In Normal Operation**

Note: Turn off the power to the relay coil when using the latching lever. After checking the operation, return the latching lever in the normal position.

**Standard (without lever)**

**AC/DC Color Marking**

For identification of AC or DC coils.

- AC coil: Yellow
- DC coil: Blue
