# Addressable WS2812B LED Strip-144leds

CE   ROHS

Product Description

This is a new chip again from worldsemi family , based on WS2812B and WS2813. To solve the chip breakdown and Strip's Voltage drop ,now we welcome RT1809.

The Flex is 144 Pixel/ LED per meter ,and 1 m in a roll we provide black and white color board. same as our other addressable tapes, it's cut-able per unit LED with a large soldering Pad which makes easy to re-solder again.

the PCB printed +12V DI ,BI, GND , both DI and BI means signal but it's only required to link the DI cable to your controller.

this PCB made by 3Ounce copper for more reliable application. 3 M tape attached on backside of strip. again we suggested you power it every 1 meters even it's 12V addressable.
