Preliminary data
Part name (Marking on product)
MIXA10WB1200TED

## Features:

- Easy paralleling due to the positive temperature coefficient of the on-state voltage
- Rugged XPT design
(Xtreme light Punch Through) results in:
- short circuit rated for $10 \mu \mathrm{sec}$.
- very low gate charge
- low EMI
- Thin wafer technology combined with the XPT design results in a competitive low $\mathrm{V}_{\text {CE(sat) }}$
- SONIC ${ }^{\text {TM }}$ diode
- fast and soft reverse recovery
- low operating forward voltage

## Application:

- AC motor drives
- Solar inverter
- Medical equipment
- Uninterruptible power supply
- Air-conditioning systems
-Welding equipment
- Switched-mode and
resonant-mode power supplies

## Package:

- "E2-Pack" standard outline
- Insulated copper base plate
- Soldering pins for PCB mounting
- Temperature sense included

## Ouput Inverter T1-T6
