

Tefzel®, also referred to as EFTEE (ethylene tetrafluoroethylene copolymer), is a thin but resilient insulation material designed for aerospace applications. It is ideal for use as appliance, panel, or wrapping wire and can also be used in the installation of aviation electronics equipment. Tefzel®'s excellent material toughness, electrical properties, and resistance to heat flames, chemicals, and radiation make this the perfect wire where high durability is required. Our Tefzel® wire also features the following:

- Can withstand up to 150°C while maintaining its flexibility and resistance to abrasion
- Tefzel insulation resists cleaning fluids, fuels, and other high pH chemicals
- Perfect for use in aerospace, electronics, or high energy radiation applications

SPECIFICATIONS

LENGTH	100 ft (30.48 m)
GAUGE	30 AWG
PACKAGED WEIGHT	0.337 lb (0.153 kg)
UPC NO.	811490018495

MADE FOR LIFE®

X-ON Electronics

Largest Supplier of Electrical and Electronic Components
