Get more out of your mobile world.

In capacities ranging from 8GB–32GB, microSDHC cards offer higher storage for more music, more videos, more pictures, more games — more of everything you need in today's mobile world. The microSDHC cards allow you to maximize today's revolutionary mobile devices. Kingston's microSDHC cards use a speed "class" rating that guarantees a minimum data transfer rate for optimum performance with devices that use microSDHC.

- Class 4 — minimum data transfer rates of 4MB/s. Great for point-and-shoot cameras, game consoles and other devices with SDHC support.

Identical in physical size to a standard microSD card, microSDHC cards are designed to comply with SD card Specification and are only recognized by microSDHC host devices. They can be used as full-size SDHC cards when used with the included adapter.² To ensure compatibility, look for the microSDHC or SDHC logos on host devices (e.g., phones, tablets and cameras).

Wherever you find yourself in the mobile world, you can rely on Kingston's microSDHC cards. All cards are 100-percent tested and are backed by a lifetime warranty.
