Save space, time and money.

Kingston's SSDNow mS200 mSATA solid-state drive offers a cost-effective performance boost with a dual-drive option that allows room for adding high-capacity storage. Available in capacities of up to 480GB, ms200 has a caseless, PCB-only design with no moving parts and is backed by a three-year warranty (30GB model has a two-year warranty), free technical support and legendary Kingston® reliability.

- > Takes up to 8x less space than a standard 2.5-inch hard drive
- > Great as a boot/cache drive
- > Latest generation mSATA interface – SATA Rev. 3.0 (6Gb/s)

¹ Some of the listed capacity on a Flash storage device is used for formatting and other functions and is thus not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Memory Guide at kingston.com/flashguide.

² Based on "out-of-box performance". Speed may vary due to host hardware, software and usage.
