Each KISTENBERG product is treated with a personalized approach. Every element is meticulously designed, paying close attention to the finest details. In addition to their aesthetic appeal, we prioritize their functional purpose. Each product is assigned a distinct color profile to ensure optimal color coordination. All components are meticulously assembled by hand, strictly adhering to the specifications outlined in the technical documentation. This meticulous process guarantees the delivery of products of the utmost quality, ensuring your enjoyment for many years to come.

X Block modular system

X BLOCK is a modular series of toolboxes and tool trolleys for storing and transporting heavy tools.

The mobile module has elastomer-coated treaded wheels to improve balance and driving comfort.

The tool trolleys are offered in the built-up version or with a drawer to enable quick access to the heaviest tools without having to remove the interlocked modules. The heavily reinforced bodies and lids make the toolboxes highly resistant to pressure and mechanical damage.

Products from X Block series withstand a pressure capacity of up to **120 kg** and they can serve as working platforms for installation works. The maximum load capacity of each toolbox is up to 50 kg.

Each tool case and toolbox in this series has a space **for locking it with a padlock.**

Toolboxes are equipped with organisers and trays making it easy to arrange the internal storage space for tools, and the lids are provided with a solid gasket for **dust and water resistance.**

X Block series is equipped with a double connector to allow modular connection with the X BLOCK, X BLOCK BRIDGE, C BLOCK, C BLOCK BRIDGE, S BLOCK PRO 45, S BLOCK PRO 55, S BLOCK ALU LOG 45, S BLOCK ALU LOG 55 series.

It is available in PRO, LOG, ALU LOG and TECH versions.

C Block modular system

C BLOCK is a professional modular system - modules withstand a pressure capacity of up to **100 kg** and they can serve as working platforms for installation works. The maximum load capacity of each toolbox is up to 25 kg. The lids are provided with a solid gasket for **dust and water resistance**.

Each tool case and toolbox in this series has a space **for locking it with a padlock**. Modules are equipped with **practical organisers** and trays.

The C BLOCK line is compatible with the X BLOCK PRO, X BLOCK ALU LOG, S BLOCK PRO 45 and S BLOCK ALU LOG 45 series modular toolboxes.

It is available in PRO and ALU LOG versions.

C BLOCK BRIDGE:

- Interlocking base between C Block and CMX system
- Compatible with X Block PRO / ALU LOG series
- Solid gasket ensures that the product is dust proof and water resistant
- Durable latches made of ABS with metal
- Body made of a mixture of increased strength polymers
- Ergonomic handle
- Transparent polycarbonate lid
- Functional boxes for arranging the interior space
- Lots of storage space for small items
- Full protection against dust and water **IP55**
