CAP VISOR LIGHT

When you need a light but not a traditional headlamp and strap, Klein Tools' new Cap Visor Light (56402) allows you to easily add light to any hat or cap. Traditional professional headlamps are designed for hard hats and can be cumbersome when you use them without a hard hat. The metal clip on Klein's new headlamp is contoured to fit securely onto the visor of your cap. Powered by two AAA batteries, this sturdy light also has a pivoting head to direct the five bright LEDs right where you need them.
