Klein's Journeyman Long-Nose Pliers... Get a Hold on Comfort and Durability

The Journeyman™ line of hand tools has expanded with the addition of two new long-nose pliers with side-cutting knives. Both tools, a six-inch (Cat. No. J203-6) and seven-inch (Cat. No. J203-7) version, feature state-of-the-art, dual-material handles, that provide a better grip without sacrificing tool strength or durability. The soft, outer-surface handle material combines comfort with a firm grip, while the harder, inner-surface handle material is designed for extra toughness and durability in harsh work environments.

Other features include knurled jaws for bending and forming wire; side-cutting knives at the hinge; a hot-riveted joint for smooth action and no handle wobble; induction hardened cutting knives for long life; and color-coded yellow handles for quick tool identification. See and feel the difference of a Klein Journeyman™ and you will know why "professionals are known by the tools they own™".

Features

⚠ WARNINGS:

- Always wear approved eye protection.
- NOT insulated. Plastic-dipped or slip-on plastic handles are NOT intended for protection against electrical shock.
