Scout® Pro 2 LT Tester with Remote Kit and Adapter

The Scout® Pro 2 LT Tester and Remote Kit is a versatile voice/data/video cable tester that locates and tests coax, data and telephone cables. The Test-n-Map™ Remote saves time by testing, mapping and identifying a location in a single step! In addition, you can measure cable runs, cable left in a box as well as bill jobs more accurately. With this kit, you can ensure fast and accurate cable installations each time.

Specifications

Application:	Cable Testing	**Overall Length:**	4.375" (11.1 cm)
Overall Height:	9" (22.9 cm)	**Batteries:**	1 x 9V
Supported Remotes:	(19) F-Connector CoaxMap ID/RJ45LanMap ID	**Display:**	LCD
Multiple Style Tone Generator:	Yes (4)	**Cable Type:**	RJ11/12, RJ45 and F-connector terminated
Cable Identification:	Includes 19 remote locators	**Test & Measure Types:**	Continuity; Miswire Detection; Open Fault Detection; Short Fault Detection; Split Pairs Detection; Cable Length Measurement; Shield Detection
Included:	Tester (VDV501-108), Test-n-Map™ Remote, (18) LanMap™ Location Remotes, (18) CoaxMap™ Location Remotes, Coax Barrel F Adapter, 1 x 9V Battery, Carrying Case	**Weight:**	2.13 lb (1 kg)
