Code	Dimensions	
L1520100	200	100

INFORMATION

- ❑ MATERIAL: polycarbonate
- ❑ Spatter protection with Velcro-adjustable head straps , made from polycarbonate 1 mm thick. First optical class. Resistant to solid spatter. Resistant to liquid splashes: - of acids (sulphuric, hydrochloric, hydrosulphuric, nitric, phosphoric acids) - low-concentration alcohols, e.g. 25% ammonium hydroxide - alcohols, except methyl alcohols - aliphatic hydrocarbons - detergents - fuels - mineral, animal, vegetable oils - engine oils.
- ❑ Resistance to medium-energy impact with a ball weighing 0.86 g, with the speed of 120 m/s. Weight 107 g. Resistance class - B.
- ❑ NORM: EN 166
