

RF Cable Assembly CA178 700 MHz to 5.82 GHz

The CA178 cable assemblies offered by Laird are engineered for peak performance up to 6 GHz. They are tested 100% and certified to meet performance specifications. Equipment manufacturers require certified cable assemblies to minimize system losses to within known parameters and these cable assemblies meet those requirements. The manufacturing processes and raw materials are well controlled in order to provide very consistent performance from lot to lot.

FEATURES **✓** RoHS

- Consistent low loss design construction
- 100% tested and certified to meet specifications
- · Various connector options available
- Flexible high temperature kink resistant cable jacket

MARKETS

- High performance wireless systems
- OEM equipment
- WiMAX
