<sup>\*</sup>Approval for cartridge versions only

#### **Description**

5×20mm fast-acting glass body cartridge fuse designed to IEC specification.

#### **Features**

- Designed to International (IEC) Standards for use globally
- Meets the IEC 60127-2, Sheet 2 specification for fast-acting fuses
- · Available in cartridge and axial lead form
- RoHS compliant and lead-free

#### **Applications**

Used as supplementary protection in appliance or utilization equipment to provide individual protection for components or internal circuits.

#### **Electrical Characteristics for Series**

| % of Ampere Rating |           | Opening Time                  |  |  |  |

### **Temperature Re-rating Curve**

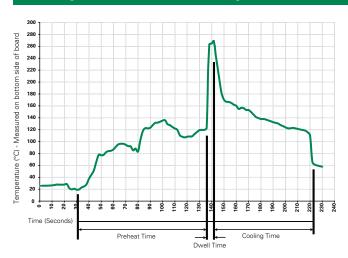

Note:

Rerating depicted in this curve is in addition to the standard derating of 25% for continuous operation.

### **Soldering Parameters - Wave Soldering**

#### **Recommended Process Parameters:**

| Wave Parameter                                    | Lead-Free Recommendation          |  |  |
|---|-----------------------------------|--|--|
| Preheat: (Depends on Flux Activation Temperature) | (Typical Industry Recommendation) |  |  |
| Temperature Minimum:                              | 100°C                             |  |  |
| Temperature Maximum:                              | 150°C                             |  |  |
| Preheat Time:                                     | 60-180 seconds                    |  |  |
| Solder Pot Temperature:                           | 260°C Maximum                     |  |  |
| Solder DwellTime:                                 | 2-5 seconds                       |  |  |

#### **Recommended Hand-Solder Parameters:**

Solder Iron Temperature: 350°C +/- 5°C Heating Time: 5 seconds max.

Note: These devices are not recommended for IR or Convection Reflow process.
