# No.

### 59230 Robust Lever Arm Sensor Features and Benefits

### **Features**

### Sensor, magnet and vane contained in single housing

- Sensor operates when integral vane is depressed
- Choice of normally closed standard or normally closed high voltage contacts
- Choice of cable length and connector

### Benefits

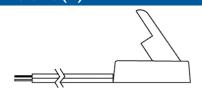

### No standby power requirement

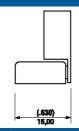

- Hermetically sealed, magnetically operated contacts continue to operate long after optical and other technologies fail due to contamination
- Simple installation and adjustment
- Single screw mounting

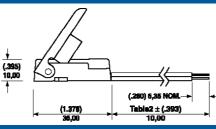

### **Applications**

- Position and limit sensing
- Security system switch
- Door switch

## **DIMENSIONS** (in) mm
