GPS/GLONASS EXTERNAL MICROSTRIP ANTENNA

Ordering Part #: 189-00015-01

Description

Our patch antenna offerings are perfect for projects with a smaller scope and budget for which high-performance and lower weight is not a primary factor for consideration for the antenna. They are ideal for less demanding applications where extreme performance and battery life can be sacrificed at the expense of device cost. This dual band GPS/GLONASS antenna is designed for various vehicle tracking, oil & gas and M2M applications though it is used for a variety of commercial and industrial applications. It features a low noise figure and high-linearity LNA. The interface connector is available in SMA, TNC, or other options.
