

■ Features :

300W Single Output Switching Power Supply

- Low leakage current<1mA
- · Protections: Short circuit / Overload / Over voltage / Over temperature
- · Cooling by free air convection
- · Low profile:31mm
- · Conformal coated
- · LED indicator for power on
- · Low cost, high power reliability
- 100% full load burn-in test
- 2 years warranty

OTHERS DIMENSION 210*81*31mm (L*W*H) PACKING 0.67kg; 20pcs/14.4kg/0.91CUFT 2. Please refer to "static characteristics" NOTE 3. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor. 4. Tolerance: line regulation and load regulation. 5. Derating may be needed under low input voltages. Please check the static characteristics for more details. 6. The power supply is considered a component which will be installed into a final equipment. The final equipment must be re-confirmed that it still meets X Product Liability Disclaimer: For detailed information, please refer to https://www.meanwell.com/serviceDisclaimer.aspx

■ Block Diagram

■ Derating Curve

■ Static Characteristics

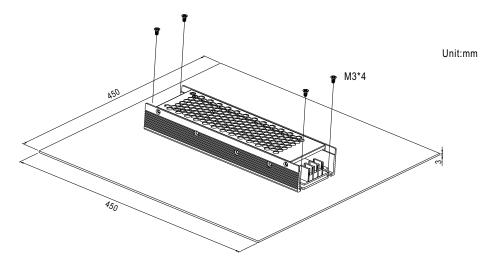

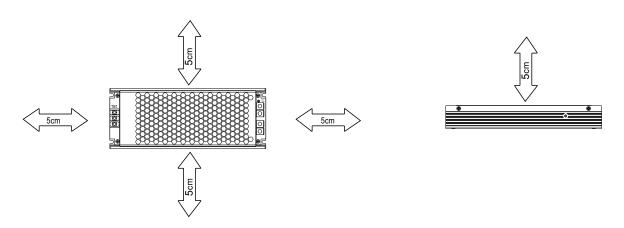

■ Installation

1. Operate with additional aluminum plate

In order to meet the "Derating Curve" and the "Static Characteristics", HSN-300 series must be installed onto an aluminum plate (or the cabinet of the same size) on the bottom. The size of the suggested aluminum plate is shown as below. And for optimizing thermal performance, the aluminum plate must have an even and smooth surface (or coated with thermal grease), and HSN-300 series must be firmly mounted at the center of the aluminum plate.

2. For heat dissipation, at least 5cm installation distance around the PSU should be kept, shown as below:
