

New Soldering System Auto-Sleep Workstand

Now included with all Metcal and OKi Soldering Systems

WS1

WS1G

WS2

WS2G

Metcal MX-500S upgraded with **WS1** universal auto-sleep workstand in black.

WS1G universal auto-sleep workstand in green available as an option (green cradle alone is also available - WS1CG).

Metcal SP200 upgraded with **WS2** auto-sleep workstand in black.

WS2G auto-sleep workstand in green available as an option (green cradle alone is also available - WS2CG).

OKi PS-800 upgraded with **WS2** auto-sleep workstand in black.

OKi PS-800E still comes with the auto-sleep workstand in black (part number is now **WS2**).

WS2G auto-sleep workstand in green available as an option (green cradle alone is also available - WS2CG).

OKi MFR Series has a built-in auto shut-off function and does not require an auto-sleep workstand.

The Auto-Sleep Workstands: How do they work?

They have an insert, with a magnetic core, which helps increase tip life by allowing the tip cartridge to idle at a lower temperature, thereby reducing oxidation.

They do not shut the iron off, they reduce the power available to the tip while it is in the stand.

The recovery time, from when the tip is removed from the Auto-sleep stand, is within seconds.

The stand also includes a brass wire wool cleaning compartment to remove heavy oxidation build up associated with lead-free process.
