Large size METTEC DESK CASES for electronics equipment with multiple internal components and large front panel LCD modules, LED's, push buttons, membrane keyboards etc.

ASSEMBLY

Case design assembled by eight M4 screws. The side extrusions are located by a recess in the rear of the bezel and fixed with screws. The rear panel is assembled with four additional screws. Side panels are fitted to vertical slots in each pair of side extrusions, and the top and base panels are captured by horizontal slots in each of the case components.

All cases are supplied assembled and include four non-slip self-adhesive feet. Base panels are pre-punched for the case feet (separate article, see accessory page 17). An M4 earth stud is fitted to the base panels.
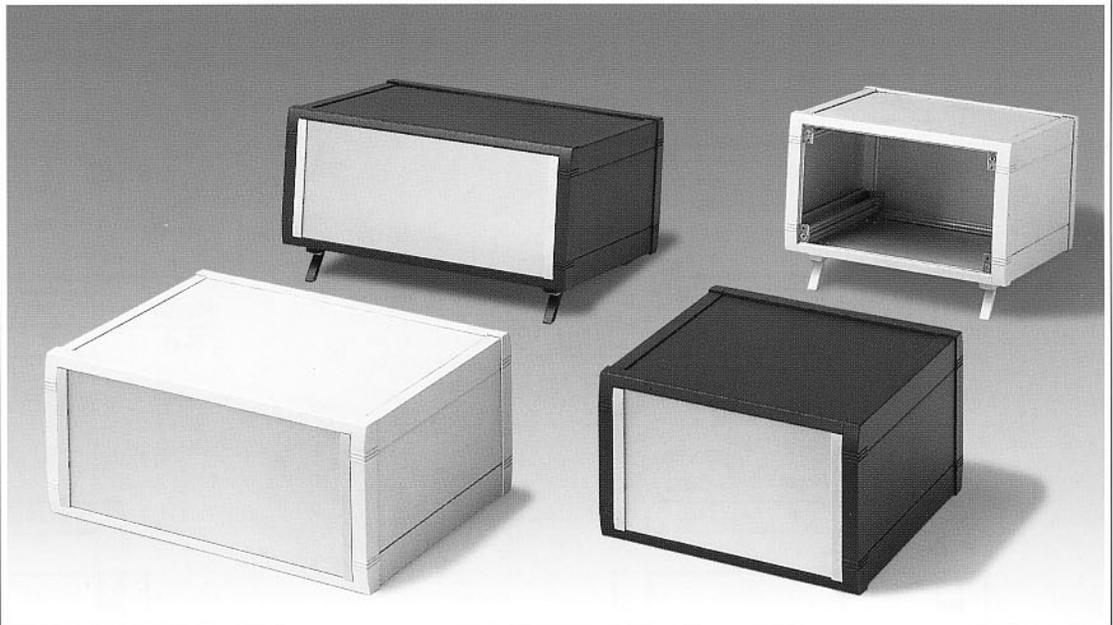

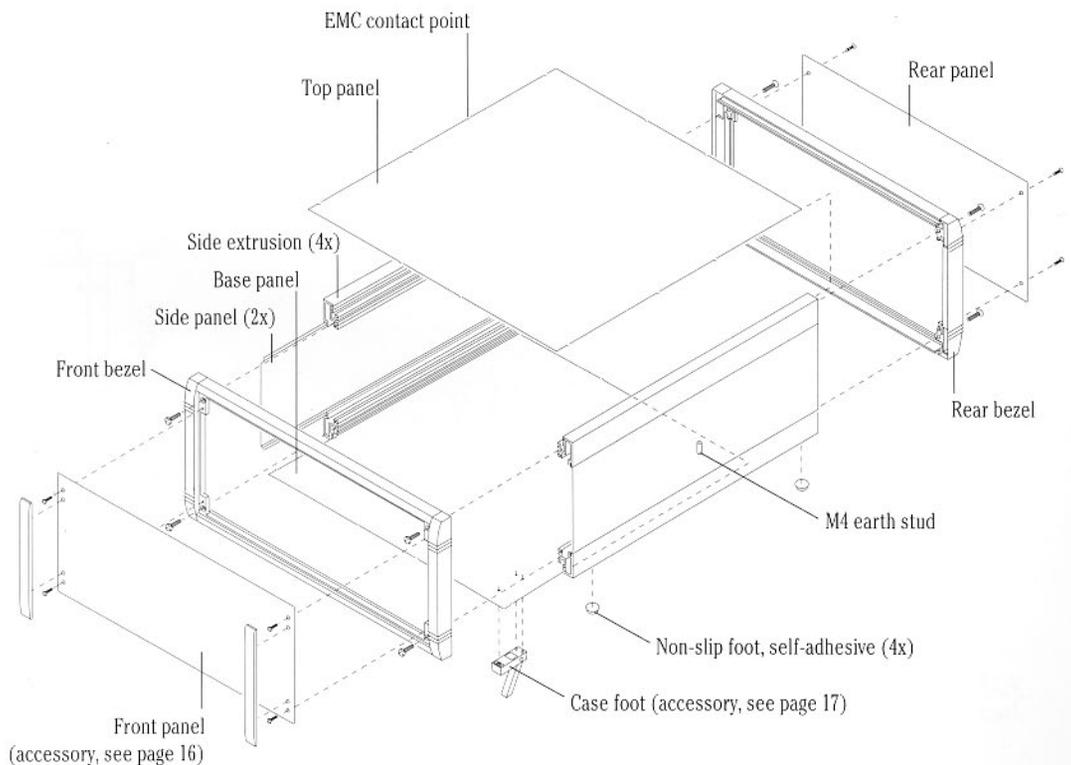

VERSION B

With rear bezel and rear panel.
