

Description

The 402B *Super Duster™ 152* is a general usage duster for electronic and electrical equipment. The duster contains pure 1,1-difluoroethane (152a), which delivers a constant, high-pressure cleaning jet. The gas jet is dry, zero-residue, and chemically inert, which makes it safe for cleaning electrical and electronic components.

Applications & Usages

The 402B duster is ideal for removing lint, dust, and other debris from electronic devices and computers. It helps prevent malfunctions and lengthens component life.

It is used to clean

- Computer equipment: CPU, Keyboards, PCB, and more
- Electrical and electronics boards and systems
- Ventilation and heat sink systems—the removal dust from heat sinks and fans helps avoid overheating situations.
- Audio visual equipment
- Lab equipment

ATTENTION!
Not for use on live electronic circuits. Use the 402A duster instead.

Benefits and Features

- **Compatible with electrical equipment and electronic components**
- **Chemically inert**
- **Zero residue**
- **Moisture free**
- **Ozone safe**
- **Suitable for Use in Food Facilities as a Non-Food Chemical**—Canadian and NFS recognition letters available on request

Properties

<i>Physical Properties</i>	<i>Value</i>
Color	Colorless
Odor	Slight, ether-like
Purity	≥99.9%
Moisture (maximum)	≤10 ppm
Non-volatile Residue (maximum)	≤0.01%
Boiling Point	-25 °C [-13 °F]
Flash Point	-50 °C [-58 °F]
Ozone Depleting Potential	0.00

Storage and Shelf Life

Store at around room temperature. Use within -20 to 50 °C [-4 to 122 °F] and protect from direct heat or sunlight.

Health and Safety

Please see the 402B *Super Duster™ 152* **Safety Data Sheet** (SDS) for more details on transportation, storage, handling and other security guidelines.

Instructions

To remove safety tab

1. Firmly hold the head of the nozzle and trigger in place.
2. Pull tab forward on top of nozzle until it snaps off.

DANGER! Do NOT use on live circuits or in presence of ignition sources.

To clean surfaces

1. Power off electrical or electronic equipment.
2. Spray directly on dusty component using bursts of spray. Clean contaminations from top to bottom to avoid redeposit of dust on clean areas.
3. Use extension tube to direct the spray in hard to reach corners.

TIP! Avoid continuous spray that causes component to reach freezing temperatures. In contact with moist air, cooled components could lead to unwanted frost formation.

Avoid touching the component directly with your hands, nozzle, or extension straw.

ATTENTION! HOLD CAN UPRIGHT to avoid ejection of liquid stream during use. Do NOT spray when container is more than 45 degrees off vertical or inverted.

Packaging and Supporting Products

<i>Cat. No.</i>	<i>Packaging</i>	<i>Net Volume</i>		<i>Net Weight</i>		<i>Packaging Weight</i>	
402B-285G	Aerosol	313 mL	10.5 fl oz	285 g	10.0 oz	4.1 kg ^{a)}	9 lb
402B-400G	Aerosol	439 mL	14.8 fl oz	400 g	14.1 oz	5.0 kg ^{a)}	11 lb
