

VE8820

Dual Channel Tracking Battery Wideband VoicePort[™] Chipset VE880 Series

APPLICATIONS

- Voice enabled Cable and DSL Modems
- Residential VoIP Gateways and Routers
- Media Terminal Adapters (MTA) Standalone & Embedded
- Fiber to the User/Premise/Home (FTTH/P/H), Fiber in the Loop (FITL) Optical Network Terminals (ONT)
- Wireless Local Loop (WLL), PBX, ISDN NT1/TA

FEATURES

- Complete BORSCHT function for 2 channels in a single VoicePort[™] chipset
 - Battery Feed, Over-voltage support, integrated Ringing, line Supervision, Codec, Hybrid (2W/4W), Test

Integrated Power Management

- Integrated high voltage switching regulator controllers
 - Wide input voltage range (VSW =+3.3V to +35 V)
 Switching power supply tracks line voltage
- minimizing active & ringing state power dissipation — Low power Idle and On-hook transmission states

Worldwide Programmability

- Two-wire AC impedance, Balance Impedance, Gain
- DC feed voltage and current limit
- Ringing frequency, voltage and current limit
- 12 kHz and 16 kHz Metering
- Programmable loop closure and ring trip thresholds

Ringing

- 5 REN
- Up to 140-Vpk internal balanced sinusoidal or
- trapezoidal ringing with programmable DC offset
- Unbalanced ringing for PBX trunk compatibility

Powerful signal generator

- Universal Caller ID generation
- Up to 4 simultaneous tones
- Automatic cadencing feature
- VoicePath[™] API-II Software available to implement FXS functions
 - Supports chipset calibration
 - Line configuration via VoicePath Profile Wizard
 - VeriVoice™ Test Suite Subscriber Loop Test
 - Seamless integration with API-II software
 - Utilizes integrated self test capabilities
 - Line fault detection and reporting
- Pin selectable PCM/MPI or GCI interface
- G.711 µ-law, A-law, or 16 bit linear coding
- Wideband 16 kHz sampling mode
- Integrated 150 mW 3-V Relay Driver
- Small footprint chipset
 - 64-pin TQFP and exposed pad 24-pin QFN

ORDERING INFORMATION

Device OPN	Package Type	Packing ²
Le88506DVC	64-pin 10 x 10 TQFP (Green) ¹	Tray
Le88830KQC	24-pin 6 x 6 QFN (Green) ¹	Tray

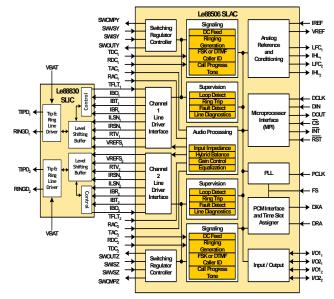

1. The green package meets RoHS Directive 2002/95/EC of the European Council to minimize the environmental impact of electrical equipment.

2. For delivery using a tape and reel packing system, add a "T" suffix to the OPN (Ordering Part Number) when placing an order.

DESCRIPTION

Zarlink's dual channel VE8820 Tracking Battery VoicePort™ chipset implements a dual-channel telephone line interface by providing all the necessary voice interface functions from the high voltage subscriber line to the µP/DSP digital interface. This chipset reduces system level cost, space, and power. Designers benefit by having a simple, cost effective, low-power and dense, interface design without sacrificing features or functionality. The programmable, feature rich VoicePort chipset provides a highly functional line interface which meets the requirements of short and medium loop (up to 1500 Ohms total) applications. Features include: high voltage switching regulator, self-test, line test capabilities, integrated ringing (up to 140-Vpk), worldwide software programmability with wideband capability, flexible signal generator with tone cadencing, caller ID generation and all BORSCHT functions. These VoicePort chipset features are crucial for designing cost-effective, full-featured Voice over Broadband solutions.

FEATURES	BENEFITS	
Lowest power solution across all operating modes	Provides lowest power consumption solution for battery- backed and power-sensitive applications	
Highly programmable	Offers design flexibility to develop one application for worldwide markets	
Integrated ring cadencing and system state control	Reduces real-time software overhead	
Common application programming interface	Significantly reduces development time with VoicePath API-II software	
Comprehensive line sensing	Enables high performance GR-909 diagnostics and subscriber loop test and self test support with VeriVoice Test Suite software	
Integrated switching regulator	Enables lowest component count and highest efficiency in all states of operation	
Small footprint	Saves board space
