Circular NFC R35 Antenna

PID: MIKROE-4003

Circular NFC R35 Antenna is PCB antenna designed with the intention to be used as extension of development boards and placed remotely on desired place such as plastic casing, existing products, or even under displays. Antenna is designed in rectangular shape with dimensions 35x20 mm. Its important to mention that this antenna can be used for NFC and RFID applications that works on 13.56 MHz frequency.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system. ISO 14001: 2015 certification of environmental management system. OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
