

PIC ICSP Adapter

PID: MIKROE-4283

PIC ICSP Adapter is an adapter board which allows you to connect mikroProg for PIC, dsPIC and PIC32 programmer and hardware In-Circuit debugger to target board where 2x5 pin header with CODEGRIP PIC ICSP pinout is available for programming.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

Specifications

Type	Adapter
Applications	Adapter allows you to connect our mikroProg™ programmer to target board with CODEGRIP PIC ICSP pinout
On-board modules	Two 2x5 male and female pin headers
Key Features	Connect the adapter to target board with CODEGRIP PIC ICSP pinout and mikroProg™ programmer
Interface	GPIO
Compatibility	2.54mm pitch, IDC10
Input Voltage	3.3V or 5V
