# **Bandpass Filter**

**BFCG-552+** 

5100 to 5930 MHz  $50\Omega$ 

## The Big Deal

- Rugged, ceramic construction
- Tiny size, 0.079" x 0.049" x 0.037" (0805)
- Good power handling

CASE STYLE: GE0805C-3

### **Product Overview**

Mini-Circuits' BFCG-552+ is a LTCC band pass filter with a passband from 5100 to 5930 MHz, supporting a variety of applications. This model provides 1.2 dB typical passband insertion loss and provides a very good stopband rejection due to strategically constructed layout with minimal interaction between components. It provides a wide operating temperature range from -55 to +125°C. Housed in a tiny 0805 ceramic form factor with wrap-around terminations, the filter is ideal for dense PCB layouts and with minimal performance variation due to parasitics.

# **Key Features**

Feature	Advantages			
Ultra-wide stopband	The LTCC band pass filter provides a very good stopband rejection suitable for high end applications.			
LTCC Construction	Provides repeatable performance in a rugged, ceramic package well suited for tough environments such as high humidity and temperature extremes.			
Tiny size (0.079 x 0.049 x 0.037")	Saves space in dense circuit board layouts and minimizes the effects of parasitics.			
Good power handling	Supports a wide range of system power requirements.			
Wrap-around terminations	Provides excellent solderability and easy visual inspection			

A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.

B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.

#### **Features**

- Miniature size 0805 (0.079"[2.0mm] x 0.049"[1.25mm] x 0.037"[0.95mm])
- · Low cost
- Aqueous washable

## **Applications**

- ISM Band
- WLAN
