### What is a Thermistor?

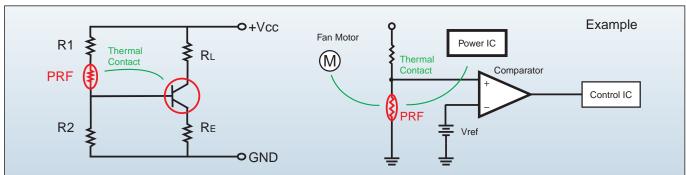

# PRF15/18 Series Chip POSISTOR<sup>®</sup> for Overheat Sensing

PRF15/18 PTC Chip thermistors detect overheating of Hybrid ICs, Power Transistors, Power Diodes and Power ICs etc.

- 2. High gain simplifies circuit design
- 3. Free of contact noise and problems
- 4. Pb free plated terminations.
- 5. Sturdy construction resists mechanical vibration and shock.

1.0402 and 0603 light weight

# **PRF15 Series Characteristics**

			Total	4	

The POSISTOR<sup>®</sup> has the following advantages over Bimetal devices.

1. Noise free

2. No contact problems

3. Low price

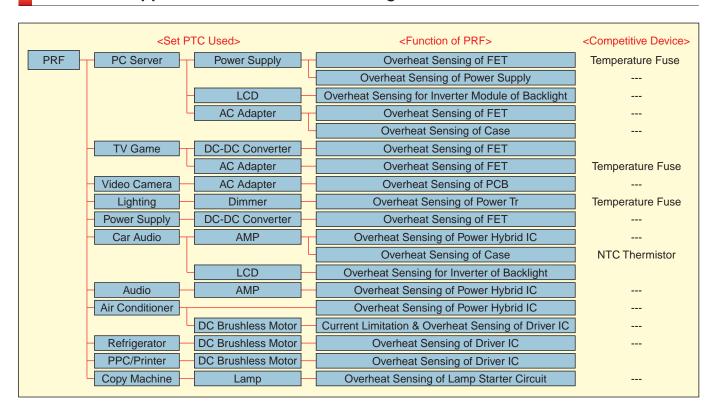

The POSISTOR<sup>®</sup> has the following additional advantages over Zener Diodes.

1. Reduced numbers of parts used in circuits

2. Reduced process costs of mounting parts on PCBs

3. Reduces occupied space, helping high density PCB mounting

### Markets & Applications of Overheat Sensing

# PRG18/21 Series Chip POSISTOR<sup>®</sup> for Overcurrent Prevention

Chip THERMISTORS prevent failure of apparatus due to excess current.

- 1.0603 and 0805 light weight
- 2. High gain simplifies circuit design
- 3. Free of contact noise and problems
- 4. Pb free plated terminations.
- 5. Sturdy construction resists mechanical vibration and shock.

### Markets & Applications for Overcurrent Protection

# Chip NTC Thermistor NCP series

- 1. A common relationship between Resistance and B constant in all sizes (0201/ 0402/ 0603/ 0805) offers convenience when downsizing.
- 2. No lead contained (Pb free).

Note • This PDF catalog is downloaded sales representatives or product • This PDF catalog has only typic

- 3. Tight resistance tolerance of  $\pm 1\%$  (Code F) available on 10k ohm (0402, 0603), 47k ohm (0603) and 100k ohm (0603) products.
- 4. High soldering heat resistant
- 5. High humidity resistant due to unique inner electrodes.

### A Note:

1. Export Control

(For customers outside Japan) No muRata products should be used or sold, through any channels, for use in the design, development, production, utilization, maintenance or operation of, or otherwise contribution to (1) any weapons (Weapons of Mass Destruction (nuclear, chemical or biological weapons or missiles) or conventional weapons) or (2) goods or systems specially designed or intended for military end-use or utilization by military end-users. (For customers in Japan)

For products which are controlled items subject to the "Foreign Exchange and Foreign Trade Law" of Japan, the export license specified by the law is required for export.

- 2. Please contact our sales representatives or product engineers before using the products in this catalog for the applications listed below, which require especially high reliability for the prevention of defects which might directly damage a third party's life, body or property, or when one of our products is intended for use in 

   Image relation of the prevention of defects which might directly damage a time party sine, body applications other than those specified in this catalog.
