ALCOSWITCH ILLUMINATED TACTILE SWITCH SERIES

with Tactile Cap Series

TE Connectivity (TE)'s ALCOSWITCH Illuminated Tactile switch series is designed for easy operation and reliability in a variety of board mounted applications. The tactile switch includes an LED indicator, available in low and high intensity versions, and 8 unique color options. Rated up to 500,000 electrical lifecycles, the Illuminated Tactile series is designed to last. We offer the translucent caps in two different styles, round and square and in five different colors. The caps correspond with the LED color.

Applications

The illuminated tactile switch is well suited for designs requiring illuminated interfaces via pushbutton style switches including:

- Industrial equipment
- Building Automation / HVAC equipment
- Instrumentation
- Communication equipment
- Control equipment

Electrical

 Electrical life (pushbutton only):

100/160 GF (grams-force): 500,000 cycles **260/520 GF (grams-force):** 200,000 cycles

Mechanical

 Number of poles: 	1
 Switch Functions: 	OFF-(ON)
 Contact Rating: 	50 mA @ 12 VDC

Specifications

- RoHS Directive 2002/95/E compliant
- REACH Compliant and Pb Free

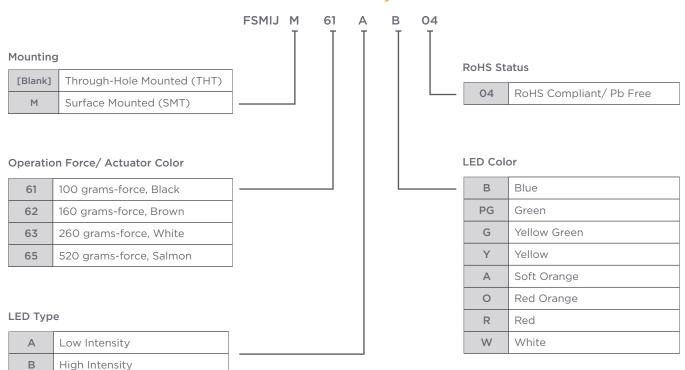

Materials

Contacts:	Stainless Steel, Silver plated	
• Actuator:	High temperature Thermoplastic (UL94-V0)	
Terminals:	Brass, Silver Plated	
• Case:	High temperature Thermoplastic (UL94-V0)	

Benefits

- Durability with switches rated up to 500,000 electrical life cycles
- Achieve design flexibility with low or high intensity LED indicators available in 8 color options
- Save board space with integrated superbright LED
- Faster board assembly with reflow or wave solder compatible designs
- Enable ease of use with tactile and audible feedback
- Designed to fit your specific application with a wide range of actuation forces available
- Caps enhance the size of the illumination
- Caps offer an easy type of actuation of the existing switch

Product Key

For additional product information, including drawings, customer viewable models, and distributor inventory, please visit <u>TE.com</u>. Use the Product Key to determine the desired part configuration, or reference the below Part Selection table.

Product Selection Information
