The electrical specifications shown are determined at a basic temperature of 25°C.

LED circuit is isolated and requires external power source. Polarity marks are on the switch.

If the source voltage exceeds the rated voltage, a ballast resistor is required.

The resistor value can be calculated by using the formula in the Supplement section.

Additional lamp detail is shown in the Accessories & Hardware section.

ASSEMBLY INSTRUCTIONS

### **Bright LED AT627**

### **Panel Seal Models**

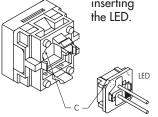

For panel seal models. Bright LED must first be inserted into the lamp socket which is built into the switch. The cap can then be placed on the switch.

## **Snap-in Models**

For snap-in models, Bright LED must be inserted into the cap first. Align cut corners

(C) when inserting the LED.

Alian D-flat on LED with flat (B) in holder when inserting the LED. To correctly join the lamp holder and cap base, match the cut corners (A).

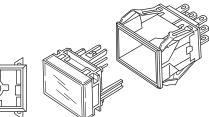

### Switch & Cap Assembly

### Round & Rectangular

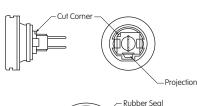

Match clip on cap assembly with receptacle inside switch. Lamp terminals will then be aligned correctly with lamp socket.

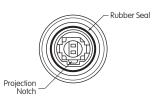

Installation & Maintenance

### **Panel Seal**

With Lamps AT607, AT607N, and LEDs AT614, AT625, AT631, AT632: Match projection on cap assembly with notch inside switch. Lamp terminals will then be aligned correctly with lamp socket.

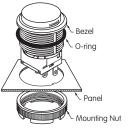

Match projection (C) on cap assembly with groove (C) inside switch. Lamp terminals will then be aligned correctly with lamp socket.

### Panel Seal **Bushing Mount**

Insert switch from the front of the panel with the o-ring between the built-in bezel and the panel. Install mounting nut AT075 (supplied with switch) from the rear of the panel.

Overtightening mounting nut may damage the switch housing.

### **Lamp Replacement**

Actuator must be in UP position. Pull off cap with cap extractor

Replace lamp and reassemble as shown above.

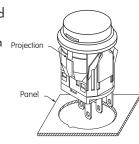

AT109 **Cap Extractor** 

### **Snap-in Mount**

Snap-in clip holds all switches firmly in place.

To mount round switch, match the antirotation projection on switch with quide cut in panel. Snap into panel cutout.
