2.4 Wait 5 seconds after applying power

Note: Please do not use the Remote Controller at this time.

2.5 Check for proper Remote Controller operation

2.6 Plug the USB Cable

Note: Wording of the display may vary.

To test the Remote Controller, press buttons '1' though 'F' on the Remote Controller to switch between the preloaded messages. The Remote Controller is considered working when messages switch via pushing different number keys.

Connect the USB Cable to the Star Bright's USB Port located on the back of the middle. Then connect the opposite end of the USB Cable to the available USB Port on your PC.

2.7 USB Installation

The display will automatically install **Printer** when the display is initially connected.

The following pop ups shown on the left will appear when the display is recognized. **No driver software is required**.
