# Keil LPC1758 Evaluation Board

Demo board description

The Keil LPC1758 Evaluation Board allows you to quickly and easily evaluate the LPC175x family of microcontrollers. The microcontroller, board, and accompanying features make it a great starting point for your next Cortex-M3 project.

Populated with the LPC1758 to demonstrate LPC175x features, the LPC1758 board allows the evaluation of the high level integration and low power consumption of the LPC1758.

Order Number: OM11036

Features

Color QVGA TFT LCD
10/100 Ethernet Port
USB 2.0 Full Speed - USB, USB-OTG, and USB Host
2 CAN interfaces
2 Serial Ports
SD/MMC Card Interface
5-position Joystick and push-button
Analog Voltage Control for ACD Input
Amplifier and Speaker
Up to 70 GPIO
Debug Interface Connectors

Descriptive summary

Keil LPC1758 Evaluation Board
Keil's LPC1758 Evaluation Board lets you get up-and-running quickly in evaluating the superior performance and capability of the LPC1758. The LPC1758 is developed with an extensive set of peripherals that allow for a broad array of designs and applications.

Demo Box Contents
