## Compact Rope Pull Emergency Stop Switch

- Compact size allows this switch to be used on smaller machines with a mounting width of 40 mm ( 1.57 in .) and covering rope spans up to 40 m ( 131 ft .)
- Tension indicator-the tension indicator makes the system easy to set up and to maintain the proper rope tension
- Contact arrangements of $2 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}$ or $3 \mathrm{~N} / \mathrm{C}$
- IP67 (NEMA 6) enclosure enables the ER5018 switch to withstand water washdown cleaning
- Heavy-duty housing-the die-cast housing and stainless steel eye nut makes the ER5018 suitable for demanding industrial applications
- Integral E-Stop-the optional E-stop provides emergency stopping at the extreme end of the installation
- Reset button-the blue reset button must be pushed in order to return to "machine run" condition following switch actuation by a pulled or slacked rope
- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
( $\in\left(\begin{array}{ll}(1)\end{array}\right) \stackrel{A}{\text { ruv }}$
Conforms to IEC947-5-1, IEC947-5-5,
EN418, UL508, BS5304
UL and C-UL listed, TUV certified

## Specifications

| Electrical | All Models |
| :---: | :---: |
| Contact Configurations: | $2 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}, 3 \mathrm{~N} / \mathrm{C}$ |
| Safety Contacts: | $2 \mathrm{~N} / \mathrm{C}, 3 \mathrm{~N} / \mathrm{C}$ |
| Switching Ability | AC: 120 V-6 A, 240 V-3 A, Inductive DC: $24 \mathrm{~V}-2.5 \mathrm{~A}$, Inductive |
| Auxiliary Contacts: | $1 \mathrm{~N} / \mathrm{O}$ |
| Max Switching Current/Volt/Amp: | 240 V/720 VA |
| Minimum Current: | 5 V 5 mA DC |
| Electrical Life: | $1 \times 10^{6}$ minimum |
| Mechanical |  |
| Mounting: | Any position |
| Mounting Hardware: | $2 \times \mathrm{M} 5$ screws |
| Max Rope Span: | 40 m (131 ft.) |
| Operation Force: | < 125 N (28 lb.) |
| Tensioning Force to Run Position: | 130 N (23 lb.) typical |
| Case Material: | Die-cast aluminum alloy |
| Eye Nut Material: | Stainless steel |
| Wiring Entry: | $3 \times \mathrm{M} 20$ or $3 \times 0.5 \mathrm{in}$. NPT |
| Weight: | 675 g (23.8 oz.) |
| Color: | Yellow |
| Mechanical Life: | $1 \times 10^{6}$ minimum |
| Environmental |  |
| Protection: | IP67 (NEMA 6) |
| Operating Temperature: | -25 to $80^{\circ} \mathrm{C}$ (-13 to $176{ }^{\circ} \mathrm{F}$ ) |
| Cleaning: | Water washdown |
| Compliance |  |
| Standards: | IEC947-5-1, IEC947-5-5, EN418, UL508, BS5304 |
| Approvals/Listings: | CE marked for all applicable directives, UL and C-UL, TUV |

## Specifications are subject to change without notice.

Note: The safety contacts of the Omron STI switches are described as normally closed (N/C)— i.e., with the rope properly tensioned and the machine able to be started.

## Operation

## Blue Reset Knob

A blue reset button is provided to easily return the unit back to its machine-run position after actuation.

## Emergency Push Button

 The emergency push button may be installed or repositioned in the field. The ER5018 has two possible mounting positions for the emergency stop button.
## Installation Hardware Available

RK Rope Tension Kit
The RK Rope Tension Kit comes with all of the required hardware for most installations. A spring is required as shown in the installation example below.

## Contact Arrangements

| 3NC Versions | Rope Slack | Tension Range | Rope Pulled |
| :---: | :---: | :---: | :---: |

## Safety Interlock Switches

## Rope Pull Emergency Stop Switch

- Long rope spans up to 80 m ( 262 ft .) means fewer number of switches required per application
- Tension indicator-the tension indicator makes the system easy to set up and to maintain the proper rope tension
- Contact arrangements of $2 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}, 3 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}$ or $2 \mathrm{~N} / \mathrm{C}+2 \mathrm{~N} / \mathrm{O}$
- IP67 (NEMA 6) enclosure enables the ER6022 switch to withstand water washdown cleaning
- Reset button-the blue reset button must be pushed in order to return to "machine run" condition following switch actuation by a pulled or slacked rope
- Indicator beacon-the optional dual indicator beacon, available in 24 VDC or 120 VAC, can be wired to flash red to indicate a tripped switch or glow a constant green to indicate a properly reset switch
- E-stop button-the ER6022 has two mounting positions where the optional E-stop button may be installed; the E-stop button may be added or replaced in the field

## Explosion-Proof Stainless Steel Rope Pull Emergency Stop Switch

- Long rope spans up to 100 m (328 ft.) means fewer number of switches required per application
- Tension indicator maintains the proper rope tension
- Contact arrangements of $3 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}$ or $2 \mathrm{~N} / \mathrm{C}+2 \mathrm{~N} / \mathrm{O}$
- IP67 (NEMA 6) enclosure withstands water washdown cleaning
- 316 stainless steel cast housing and stainless steel hardware
- Reset button-the blue reset button must be pushed in order to return to "machine run" condition following switch actuation by a pulled or slacked rope
- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
- Optional E-stop button-may be added or replaced in the field

C $\epsilon$
Conforms to IEC947-5-1, IEC947-5-5,
EN418, UL508, BS5304

[^3]
## Operation

## Blue Reset Knob

A blue reset button is provided to easily return the unit back to its machine-run position after actuation.

## Emergency Push Button

The emergency push button may be installed or repositioned in the field. The XER6022-SS has two possible mounting positions for the emergency stop button. To assure compliance with all applicable European and Canadian standards, the supplied yellow background label must be applied.

Installation Hardware Available

RK Rope Tension Kit
The RK Rope Tension Kit comes with all of the required hardware for most installations. A spring is required as shown in the installation example below.

## Installation Hardware

Individual hardware items may be purchased for specific installation requirements.

## Contact Arrangements

## Stainless Steel Rope Pull Emergency Stop Switch

- Long rope spans up to 100 m ( 328 ft .) means fewer number of switches required per application
- Tension indicator maintains the proper rope tension
- Contact arrangements of $3 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}$ or $2 \mathrm{~N} / \mathrm{C}+2 \mathrm{~N} / \mathrm{O}$
- IP67 (NEMA 6) enclosure withstands water washdown cleaning
- 316 stainless steel cast housing and stainless steel hardware
- Reset button-the blue reset button must be pushed in order to return to "machine run" condition following switch actuation by a pulled or slacked rope
- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
- Indicator beacon-the dual indicator beacon is optional on the ER6022-SS; the indicator beacon can be wired to flash red to indicate a tripped switch or glow a constant green to indicate a properly reset switch
- Optional E-stop button-may be added or replaced in the field

## Specifications

| Electrical | ER6022-SS |
| :---: | :---: |
| Contact Configurations: | $3 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}, 2 \mathrm{~N} / \mathrm{C}+2 \mathrm{~N} / \mathrm{O}$ |
| Safety Contacts: | $2 \mathrm{~N} / \mathrm{C}, 3 \mathrm{~N} / \mathrm{C}$ |
| Switching Ability | AC: 240 V-3 A, 120 V-6 A, Inductive DC: $24 \mathrm{~V}-2.5 \mathrm{~A}$, Inductive |
| Auxiliary Contacts: | 1 N/O, 2 N/O |
| Max Switching Current/Volt/Amp: | 240 V/720 VA |
| Minimum Current: | 5 V 5 mA DC |
| Electrical Life: | $1 \times 10^{6}$ minimum |
| LED Indicator Beacon: | 24 VDC |
| Mechanical |  |
| Mounting: | Any position |
| Mounting Hardware: | $4 \times \mathrm{M} 5$ screws |
| Max Rope Span: | 100 m (328 ft.) |
| Operation Force: | $<125 \mathrm{~N}$ (28 lb.) |
| Tensioning Force to Run Position: | 130 N (23 lb.) typical |
| Case Material: | Die-cast aluminum alloy |
| Eye Nut Material: | Stainless steel |
| Wiring Entry: | $3 \times \mathrm{M} 20$ or $3 \times 0.5 \mathrm{in}$. NPT |
| Weight: | 880 g (31 oz.) |
| Color: | Natural |
| Mechanical Life: | $1 \times 10^{6}$ minimum |
| Environmental |  |
| Protection: | IP67 (NEMA 6) |
| Operating Temperature: | -25 to $80^{\circ} \mathrm{C}$ (-13 to $176{ }^{\circ} \mathrm{F}$ ) |
| Cleaning: | Water washdown |
| Compliance |  |
| Standards: | IEC947-5-1, IEC947-5-5, EN418, UL508, BS5304 |
| Approvals/Listings: | CE marked for all applicable directives (UL and C-UL, TUV) |

[^6]Note: The safety contacts of the Omron STI switches are described as normally closed (N/C)—
i.e., with the rope properly tensioned and the machine able to be started.

Conforms to IEC947-5-1, IEC947-5-5,
EN418, UL508, BS5304
UL and C-UL listed, TUV certified

Operation

## Blue Reset Knob

A blue reset button is provided to easily return the unit back to its machine-run position after actuation.

## Emergency Push Button

The emergency push button may be installed or repositioned in the field. The ER6022-SS has two possible mounting positions for the emergency stop button. To assure compliance with all applicable European and Canadian standards, the supplied yellow background label must be applied.

Installation Hardware Available

RK Rope Tension Kit
The RK Rope Tension Kit comes with all of the required hardware for most installations. A spring is required as shown in the installation example below.

## Contact Arrangements

## Mounting Specification

Note: Some installations may require a ER6022-SS on each end.

## Rope Pull Emergency Stop Switch

- Long rope spans up to 200 m ( 656 ft .) makes this switch ideal for applications where long rope spans are required
- IP67 (NEMA 6) enclosure enables the ER1032 switch to withstand water washdown cleaning
- Integral E-stop-the E-stop button provides emergency stopping capability at the extreme end of the installation and is field serviceable
- Tension indicator-the tension indicator makes the system easy to set up and to maintain the proper rope tension
- 4 N/C safety contacts and 2 N/O auxiliary contacts satisfy the most demanding applications

- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
- Indicator beacon-the indicator beacon, available in 24 VDC or 120 VAC can be wired to flash red to indicate a tripped switch or glow a constant green to indicate a properly reset switch

## Rope Pull Emergency Stop Switch

- Long rope spans up to 125 m (410 ft.) makes this switch ideal for applications where long rope spans are required
- IP67 (NEMA 6) enclosure enables the ER1022 switch to withstand water washdown cleaning
- Integral E-stop-the E-stop button provides emergency stopping capability at the extreme end of the installation and is field serviceable

- Tension indicator-the tension indicator makes the system easy to set up and to maintain the proper rope tension
- 4 N/C safety contacts and 2 N/O auxiliary contacts satisfy the most demanding applications
- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
- Indicator beacon-the indicator beacon, available in 24 VDC or 120 VAC, can be wired to flash red to indicate a tripped switch or glow a constant green to indicate a properly reset switch

## Specifications

[^10]Note: The safety contacts of the Omron STI switches are described as normally closed (N/C)—
i.e., with the rope properly tensioned and the machine able to be started.

Conforms to IEC947-5-1, IEC947-5-5,
EN418, UL508, BS5304
UL and C-UL listed, TUV certified

## Operation

## Blue Reset Knob

A blue reset button is provided to easily return the unit back to its machine-run position after actuation.

## Installation Hardware Available

## RK Rope Tension Kit

The RK Rope Tension Kit comes with all of the required hardware for most installations. A spring is required as shown in the installation example below.

Installation Hardware
Individual hardware items may be purchased for specific installation requirements.

## Rope Pull Emergency Stop Switch

- Long rope spans up to 80 m (262 ft.) means fewer number of switches required per application
- Tension indicator-the tension indicator makes the system easy to set up and to maintain the proper rope tension
- Contact arrangements of $1 \mathrm{~N} / \mathrm{C}+1 \mathrm{~N} / \mathrm{O}$
- IP67 (NEMA 6) enclosure enables the XER6022 switch to withstand water washdown cleaning
- Heavy-duty housing-the die-cast housing and stainless steel eye nut makes the XER6022 suitable for demanding industrial applications
- Reset button-the blue reset button must be pushed in order to return to "machine run" condition following switch actuation by a pulled or slacked rope
- Long life-the XER6022 switch is designed for a minimum of one million actuations
- Vibration tolerant-the snap-acting switch contacts protect against nuisance tripping due to vibration
- E-stop button-the XER6022 has two mounting positions where the optional E-stop button may be installed; the E-stop button may be added or replaced in the field

## Specifications are subject to change without notice.

Note: The safety contacts of the Omron STI switches are described as normally closed (N/C)—i.e., with the rope properly tensioned and the machine able to be started.

## Explosion-Proof Classification

The explosion-proof models of safety interlock switches are specifically designed for potentially explosive atmospheres while retaining the features and operating characteristics of the conventional models.

A sealed flameproof contact block makes the explosion-proof interlock switches suitable for use in European Zone 1 and Zone 2 environments, which are typical of those found in the chemical and petrochemical industries. All switches are classified by the European method as EEx d II C T6. For a full explanation of the classification method, see "Hazardous Location Rating Systems for Interlock Switches" in The Safety Library Section of this catalog.

These switches are not suitable for use in atmospheres containing Group I gases, e.g., methane (firedamp).

These switches DO NOT meet all conditions of the US classification of Class I, Div 1, due to the differences between European and US classification methods. In the US and Canada, these products can be used in areas classified as Class I, Division 2 in Groups A (acetylene), B (hydrogen), C (ethylene) and D (propane).

## Operation

## Blue Reset Knob

A blue reset button is provided to easily return the unit back to its machine-run position after actuation.

## Emergency Push Button

The emergency push button may be installed or repositioned in the field. The XER6022 has two possible mounting positions for the emergency stop button.

## Installation Hardware Available
